MACKENSEN'S MEN TAKE NAVEST FORT

By Associated Press.

Berlin, Jan. 21.—The entire bridgehead position at Nanești, on the Sereth line in northern Rumania, fell into Field Marshal von Mackensen's hands with the town, capture of which was reported yesterday, the war office announced today. The Russians suffered severe losses in retreating across the Sereth bridge and 556 prisoners were taken.

An attack by the Russians in the Putna valley on the western Moldavian front was broken up and minor attacks elsewhere along the line were repulsed. Only minor operations in the official war areas are reported in the official statement which reads:

"Eastern Front.—East of Baranovichi German raiding detachments entered Russian trenches and brought back seventeen prisoners. Minor advances by the Russians were repulsed. "Front of Field Marshal von Mackensen.—Together with Nanești on January 19, the entire bridgehead there, tenaciously defended by the Russians, fell into our hands. Pomeranians, Altmarkians and West Prussians stormed several hostile lines which had strongly entrenched points of support. The town itself was taken in a violent house-to-house struggle. The Russians streaming back across the Sereth bridges, were caught by our outflanking batteries and machine guns and suffered severe losses. One officer, 555 men, two machine guns and four mine throwers fell into our hands."

English Deny Report.

Petrograd, Jan. 21 (British Admiralty via Wireless Press).—Conditions along the Rumanian front were generally the same yesterday, according to today's war office announcement, the only developments reported being successful reconnoitering operations by Russians and Rumanian scouts. Similar conditions prevailed on the front in Russia and Galicia.

GERMANY TO GIVE REPLY ON HOLDING NEUTRAL SOLDIERS

By Associated Press.

Berlin, Jan. 21.—A summary of the German admiralty's official statement on the detention as prisoners of war of neutral sailors aboard armed merchantmen captured by the German naval forces was cabled to the state department at Washington by Ambassador Gerard last evening. This is the only information yet available regarding this development in procedure.

German circles profess to regard the case as affording an opportunity for negotiations looking to the settlement between America and Germany of the status of armed merchantmen. Since the men in question are safe and the case is not complicated by the loss of human life, optimism over an amicable adjustment is expressed here.

Since the issuing of the German memorandum on armed merchantmen earlier in the war, German authorities have held that a ship which mounts guns, whether they be intended for defense or offense, loses its status as a private commercial craft and becomes a warship. Sailors taking service on such a ship, these authorities contend, lose their neutral status, just as if they had enlisted in the naval forces of a belligerent. Therefore, these sailors are liable to treatment as prisoners of war, it is held.

Storm Hits Nebraska.
By Associated Press.
Omaha, Neb., Jan. 21.—One of the worst storms of the winter gripped Nebraska and Iowa today. Freight traffic has practically been abandoned on railroads in Nebraska and western Iowa and passenger trains are running hours behind schedule. A heavy snow fell last night and today.

COLLEGE CRAMPED
HER SOUL; SO SHE
MARRIED AN ACTOR

Mrs. Irving Pichel.

Miss Violette Wilson, daughter of J. Stitt Wilson, sociologist and former mayor of Berkeley, Cal., recently married Irving Pichel, an actor. She left her studies at the University of California several months ago because, she said, "the university with its pedantic, old foggy methods and its staccato rules, was cramping my soul."

UNIDENTIFIED MAN INSTANTLY KILLED BY INTERURBAN CAR

An unidentified man, apparently about 65 years of age, was struck by an incoming interurban car near Sanger station, about nine miles from Waco, last night at 7:10 o'clock and was instantly killed. As soon as the interurban had been brought to a standstill its occupants rushed to the lifeless body, which had been thrown several feet. The body was brought to the city by the interurban car and later taken to the Fall Undertaking company, where it will be held while efforts are being made to identify it.

Examination of the body found that the man's right leg had been broken and that the injury that caused his death was a gash made above the right eye. The body was badly bruised.

Following is a description of the man, who looks to be a Bohemian: Height 5 feet 9 inches, weight 150 or 160 pounds, hair dull gray.

E. B. Blanton of 729 North Twelfth street was the motorman on the car that struck the man and J. J. Vanhorn of 1602 North Seventh street was the conductor.

Justice of the Peace T. Edgar Johnson viewed the body last night. He will conduct an extensive investigation this morning in an effort to identify the man. Mr. Johnson stated last night that there was no mark on the man or his clothing that he might be identified by. There was a slip of paper on his person that had some name on it, but the paper was worn and the writing not legible.

**\$2,400 Is Paid
For Poem by
Singer**

By Associated Press.
Chicago, Jan. 21.—It was announced at the close of the allied bazaar last night that the manuscript of Eugene Field's poem, "Little Boy Blue," brought \$2,400. It went to John McCormack, the singer.

Minister Believes German
Ship Used American Flag

By Associated Press.
Rio Janeiro, Jan. 21.—The minister of marine has received a telegram from the captain of the port of Pernambuco confirming the previously reported declaration of the commander of the Brazilian steamer Maranhão, that he had encountered two cargo vessels, accompanied by two auxiliary ships, believed to be Germans, all flying the American flag.

Because Price Was Lower and Quality of the
Goods Much Superior to Those Offered by
American Factories.

CANADIAN OFFICER KILLED, SEVERAL HURT IN COLLISION

By Associated Press.

Toronto, Ont., Jan. 21.—Col. William Campbell MacDonald was instantly killed and a score of others were injured tonight when a light engine backed into a troop train carrying 500 soldiers as it was leaving the union station here.

The body of Colonel MacDonald, a brigadier, attached to the headquarters staff at the exhibition camp, was extricated from underneath the rear axle of the tender coupled to the light engine, under which another man was also pinned. Engineer John Ross and Fireman Charles Farmer of the engine crew were arrested charged with manslaughter.

Several hundred persons were standing on the station platform cheering the troop train as it pulled out when the engine, hidden in steam, backed through the train shed and ploughed into the rear of the train.

Colonel MacDonald had just alighted from the rear sleeping car and was walking across the track when the engine struck him. Captain MacPherson, who was the motorman on the engine, was with him, escaped death by inches. None of the injured is expected to die.

**Army May Soon
Put Kitchens
on Wheels**

By Associated Press.
San Antonio, Jan. 21.—Wheeled mess kitchens may soon replace the old-time wood burning stoves and ovens in the army. Several different kinds of portable kitchens or "soup carts" have been given trials in the national guard organizations and in the regular army.

Some of them have been found to come up to all expectations and it is the belief of officers that they will soon be purchased in numbers sufficient to equip the army as a whole.

**New Orleans Dry
on Sunday for
First Time**

By Associated Press.
New Orleans, Jan. 21.—Grocery stores, cigar and tobacco shops and saloons were closed here today on orders issued by police officials for a rigid enforcement of the state Sunday closing laws. Never before, police officials said, have the Sunday closing laws been so rigidly enforced here.

Announcement was made today that a second mass meeting would be held under the auspices of the Citizens League of Louisiana Tuesday night to discuss Sunday closing laws and vice conditions.

Ready for Race.
By Associated Press.
Montgomery, Ala., Jan. 21.—Pairings were made here tonight for the free-for-all stake of the National Field Trials club to be run this week over the club's course at Cahoon, Ala.

Local Readings.
Maximum temperature 49 at 1 p. m.; minimum 61 at 1 a. m.; barometer 29.85; humidity .69; wind passage 12 miles; fastest 18 miles an hour at 10:20 p. m.

By Associated Press.
Washington, Jan. 21.—Secretary Daniels issued a statement today explaining and defending his action in awarding to Hadfields, Limited, a British munitions company, contracts for a large number of navy armor plating projectiles at a price about \$200 each below the lowest American bid. The statement is in reply to published comment upon the contract, which, Daniels says, "convinced me that a concise statement of the experiences of the department in obtaining shells equal in quality to those used by foreign navies at a reasonable price is necessary to enable the public to understand what has been going on."

Referring to a report in certain American trade journals that the British government had urged Hadfields to seek his contract for the purpose of creating a panic in an American steel market and a resulting reduction in the export price of American steel, the secretary says that "its patent absurdity" as such an order would have no appreciable effect upon the market.

COMPANY GIVES
INFERIOR GOODS.

Daniels says the Bethlehem Steel company, which "has been filling the papers with advertising criticizing the department" admitted in one of these publications that it had failed to make satisfactory shells on a contract awarded two years ago.

"Until it is able to fill its contracts," he adds, "it does not become the Bethlehem company to criticize the navy department for awarding contracts to manufacturers who can make shells that meet the tests. The department wished to give all of its orders to American manufacturers whenever they quote reasonable prices and furnish shells that meet navy requirements. Nothing but the utter failure of the most patient negotiations and appeals to the patriotism of the little group of steel manufacturers who have a practical monopoly of this business have made it imperative for the government to build a projectile factory and give a contract to a foreign bidder."

The statement reviews the department's dealings with American shell makers during the last few years to show that bids from the British concern previously had been instrumental in compelling a reduction in price for projectile furnished to this government. The financial loss to the government in that connection has been important, it says, and it adds:

DIFFERENCE LIES
IN QUALITY.

"What has not been made clear, however, is the failure of the companies manufacturing projectiles with no spur of competition to drive them on to keep pace with the improvements in the quality of armor piercing shells that were being made abroad. A difference in the price of shells cannot be expressed in dollars and cents. Inferiority of weapons of defense when the fate of the battle may easily depend upon this single element cannot possibly be expressed by any amount of money, however large."

Daniels declares that the argument used by those who oppose the construction of a navy projectile plant which contends that the result will be to crush American industry is without value.

**"Father of Autos,"
Paris Inventor,
Is Dead**

By Associated Press.
Paris, Jan. 21.—Amedee Bolle, Sr., the inventor known in France as "the father of automobilism," is dead. Bolle was the builder of a steam car which he first operated in 1873.

TODAY'S WEATHER

VOLUNTARY FORECAST.

By Isidor Block, D. O. S., F. R., Met. S.,
Optician and Meteorologist.

Today generally fair and colder.

A high pressure that was created over the Pacific coast is moving this way, and will give clear, skies with cooler weather.

Local Readings.

Government Forecast.
New Orleans, Jan. 21.—Government forecast:

East Texas—Monday fair, much colder with a cold wave in south portion; Tuesday fair, colder in southeastern portion. West Texas—Monday fair, much colder, cold wave in north portion. Louisiana—Monday unsettled in south, fair in north portion, colder, much colder in north portion, cold wave in north portion; Tuesday fair, colder. Arkansas—Monday fair, much colder; Tuesday fair and cold.

Girl Autoist Wins \$1000 Bet and Husband Quickly

Special to The News.

Philadelphia, Jan. 21.—When Herbert D. Betts lost a \$1000 wager to a young motion picture actress a month ago, little did he realize luck would so turn in his favor. For, despite the fact he lost the \$1000, he succeeded in winning the winner.

The actress was Miss Eleanor Blevins, formerly a star with a large film company. She was known as "Peg of the Movies." The young couple were married at the home of Mr. Betts' father, Dr. Thomas Betts of Oak Lane. The bridegroom is a prominent automobile man of Wilmington, Del., but is well known in Philadelphia.

The romance began early in December, when the young woman, who is an enthusiastic motorist, won the road race from Washington to New York. On the way, however, there was a breakdown near Newark, N. J., and the former Miss Blevins' mechanic, a man prominent in New York society, telephoned his friend Betts for assistance. Betts motored out from Wilmington with the necessary parts for repairing the machine and met his fate.

After the repairs had been made and Miss Blevins was about to speed on her way, the rescuer proposed a bet of \$1000 that she would not win the race. The bet was immediately accepted. Upon winning the race Miss Blevins received a check for \$1000, accompanied with a long letter of congratulation. From that time on both

Paris Honors Memory of Americans Lost for Cause

By Associated Press.

Paris, Jan. 21.—The national theatre, the Comedie Francaise, today honored the memory of American volunteers who have died for France. Among those present was a delegation from Lafayette squadron, composed of the American aviators, headed by Lieut. William Thaw, Adj. Raoul Laffery, and four American volunteer workers at the American ambulance.

Ambassador Sharp and his family, the attaches of the embassy and many members of the American colony.

TURKEY'S ANSWER PROCLAIMS ALLIES WANT TERRITORY

By Associated Press.

Berlin, Jan. 23.—A summary of the note handed by the Turkish government to neutrals in regard to the entente answer of the peace proposals of the central powers was given out today by the Overseas News agency as follows:

"This note points out that the central powers, especially Turkey, not desiring entente territory, had no reason whatever to begin the war. The entente, however, as a matter of common knowledge, the note continues, covets territory of the central powers. Thus, it continues, France wishes Syria and Alsace-Lorraine; it also desires southwestern Austrian provinces; Russia wants Constantinople and the Straits and a large part of Anatolia, and England wants Mesopotamia and Arabia.

"Equally known, the note adds, are the intrigues of the entente conducted in an effort to hamper Turkey's evolution and realize the plan for the partition of Turkey, in spite of the principle of nationalities, which as a matter of fact, is a subject of indifference to the entente immediately its own interests are at stake. The proclamation of a British protectorate over Egypt, where the population is almost entirely English race, the annexation of Cyprus, where there were no English; the occupation of Tripoli by the Italians, where the Italians were simply intruders; the visionary dream to give to Russia Constantinople and the Bosphorus basin, where an overwhelming majority of the population is Turkish and Mohammedan—all of these are pointed to as violations of the principle of nationality.

"Turkey, says the note, thus was obliged to take up arms for the defense of territorial integrity, liberty and independence, and she now is persuaded that this object has been attained. The hostile powers being at this time as far from the realization of their plans as ever. For this very reason, it is concluded, they nervously decline the sincere proposition of the central powers and deliberately take upon themselves the responsibility for the continuation of bloodshed."

the winner and the loser saw much of each other, but Betts soon decided to get out of the losing class. He proposed to Miss Blevins and was accepted.

Paris Honors Memory of Americans Lost for Cause

President Poincaré was represented. Rene Besnard, undersecretary for war, in an address paid tribute to Americans who have lost their lives. Including Corporal Victor Chambers, Sergeant Norman Price, Allan Seeger, Kenneth Weeks and others.

M. Silvain, dean of the Comedie Francaise, and Madame Second-Webster, the tragedienne, who had an American flag draped about her read poems written by Alan Seeger, the Harvard student, who was killed last summer during the Somme offensive.

Tomorrow, responding to the president's personal appeal for action at this session on important legislative proposals, the steering committee of the senate will meet and endeavor to arrange a program for the remainder of the session and for longer day and probably night sessions. A caucus of democratic senators will be called later in the week to ratify steering committee suggestions.

NATIONAL CONGRESS, RID OF LEAK, WILL START PROGRAM

By Associated Press.
Washington, Jan. 21.—With the peace note leak investigation transferred to New York, administration leaders in congress are breathing signs of relief because of the attention of members generally now can be concentrated upon the clogged legislative program.

House and senate leaders are just as anxious as President Wilson over the press of important business remaining on the calendar with the session half over, and there is no secret made of the fact that all of them earnestly desire to avoid an extra session if it possibly can be done.

Tomorrow, responding to the president's personal appeal for action at this session on important legislative proposals, the steering committee of the senate will meet and endeavor to arrange a program for the remainder of the session and for longer day and probably night sessions. A caucus of democratic senators will be called later in the week to ratify steering committee suggestions.

Nude in Motion Picture Art Must Go

By Associated Press.
New York, Jan. 21.—The nude in motion picture art has come under the ban of the national board of review, it was announced here tonight. All producing companies that have agreed with the national association have agreed, it was said, not to permit the production in their studios of photoplays using such a figure. Action was taken after "widespread disapproval" of such pictures was disclosed by a survey of the industry covering the entire country.

Danger of overproduction of sex problem plays also has been recognized by the board of review, it was announced. The producers' branch of the association has voted, therefore, that any attempt on the part of any unscrupulous manufacturer to use the motion picture for indecent or immoral purposes must be dealt with summarily and every report offered to the law in forcing authorities in the suppression of such pictures.

TEXAS GUARDS NOT LISTED TO LEAVE BORDER

By Associated Press.

Washington, Jan. 21.—More than 25,000 national guardsmen now on the Mexican border have been designated by Major Funston for return home and muster out of the federal service under the order issued yesterday by the war department.

All these organizations will be started homeward as soon as transportation facilities can be provided. Their departure will leave between 45,000 and 50,000 men of the guard still doing border patrol.

NO ACTIONS ON
PERSHING'S FORCES.

War department officials continue to withhold comment on reports that the movement of General Pershing's regulars out of Mexico soon will be under way and the statement announcing the guardsmen designated for relief does not connect these orders with the withdrawal plans in any way. The understanding has been, however, that with the return of the expedition in Mexico and readjustment of the border patrol all of the state troops gradually would be sent home.

The department's statement said: "General Funston has selected these organizations chiefly in accordance with the rule of returning first those troops longest in service on the border. To some extent, however, this rule could not be followed without weakening of the border guard and the departures from it are so explained. The total strength of the organizations selected is 25,243."

TROOPS THAT ARE ORDERED HOME.

The guardsmen designated for return and muster out include:

Louisiana—First battalion field artillery hospital No. 1.
Arkansas—First infantry.
Delaware—Two battalions infantry.
District of Columbia—Battery B, field artillery.
Illinois—brigade headquarters and third infantry.
Indiana—School infantry; ambulance company No. 2; brigade headquarters.
Iowa—First squadron cavalry; field hospital No. 1; ambulance company No. 1; brigade headquarters; third infantry.
Kentucky—Second infantry.
Maryland—Fifth infantry.
Minnesota—First infantry; first field artillery.
Missouri—Fourth infantry.
Montana—Troop A, cavalry.
Nebraska—Field hospital No. 1, company A, signal corps, fifth infantry.
New Hampshire—First infantry.
New York—Seventy-fourth infantry; field bakery company; supply train ambulance company No. 4.
North Carolina—First infantry.
Ohio—First infantry; fifth infantry; third brigade headquarters; first squadron cavalry.
Oklahoma—First infantry; troops A and B cavalry; field hospital company; company A engineers.
Pennsylvania—Second field artillery; company C engineers; sixth infantry; eighth infantry; third brigade headquarters.
South Carolina—Troop A cavalry; company C engineers; field hospital company.
South Dakota—Fourth infantry.
Utah—Second squadron cavalry.
Tennessee—Ambulance company No. 1, field hospital No. 1.
Virginia—Second infantry.
Wisconsin—Second infantry.

TWO AUTO BANDITS KILLED IN WRECK TRYING TO ESCAPE

By Associated Press.
St. Louis, Mo., Jan. 21.—Harry Walsh and William Beckmann, two of a party of five automobile bandits who attempted early Sunday morning to rob a mercantile store at Florissant, a suburb, were killed when a stolen automobile in which three of them were riding crashed through the rail of a bridge and fell fifteen feet into a ravine.

Joseph Robinson, George Brown and William O'Gorman, other members of the party, are in jail at Clayton, St. Louis county.

The men were surprised in the store when William Heck, who lives next door, entered with a flashlight and captured Robinson and Brown. The other three escaped in the automobile. When the machine plunged over the bridge O'Gorman was thrown clear of it. He was dazed by the fall and walked back to the store, arriving just in time to be arrested by Constable Mueller, who had been summoned by Heck.

RUSSIAN EMPEROR PLEADS THAT ARMY BE WELL EQUIPPED

By Associated Press.

London, Jan. 21.—An imperial rescript has been addressed by Emperor Nicholas to the new Russian premier, Prince Golotzine, calling upon him among other things to see that the government devotes its first attention to the question of supplies for the armies of Russia and concentrate itself upon the development of a large scale of the measures recently taken in this connection. The text of the rescript, as transmitted by Reuter's Petrograd correspondent, reads in part: "Having entrusted you with the responsible post of president of the council of ministers, I deem it opportune to point out to you the pressing problems the solution of which should be the main object of the government's attention."

"At the present moment, when the tide of war has turned, all thoughts of Russians are directed toward the valiant and glorious defenders of our country, who with keen expectation are awaiting a decisive encounter with the enemy."

"The natural resources of our country are unending. There is no danger of their becoming exhausted, as is apparently the case with our enemies. All the greater is the significance attached to the settlement of the question of supplies, which under present conditions is so important and so complicated."

"Accordingly, I call upon the government, unified in your person, to devote its attention first and foremost to the provisioning of my valiant armies and, behind the firing line, lessening those difficulties connected with supplies, inevitable in a world war. I count upon it that the joint labors of the whole government will be concentrated in the reorganization and development of the measures recently taken toward this end."

"Another problem to which I attach supreme importance is the further improvement of transport, railway and waterway. Council of ministers should in that connection work out decisive measures which will assure the full utilization of the means of transport in order to be able, through the co-operation of all departments, to furnish our troops with all that they require."

Lost Aviator Is Now on Way to San Diego

By Associated Press.

Wellton, Ariz., Jan. 21.—Lieut. Col. Harry G. Bishop, who with his fellow army aviator, Lieut. W. A. Robertson, was lost for nine days on the Sonora desert, was brought into Wellton at 4 o'clock today. He was said to be in good condition and to be retaining his strength rapidly. A few hours after his arrival he left for San Diego. Maj. O. G. Brown of the medical corps, in charge of a detachment of fourteen men who carried Bishop fifteen miles to a motor ambulance, said that Bishop stood the trip and the subsequent drive of fifty miles quite well.

Greek Troops Are Being Moved Into Interior

By Associated Press.

Athens, Jan. 21.—The removal of Greek troops and war material to the Peloponnese continues. It is believed the transportation of artillery will be completed next week, when the blockade can be lifted. The entire detachment will be finished in a fortnight, according to present indications.

French Announce Quietness Along Western Front

By Associated Press.

Paris, Jan. 21.—With the exception of an attack by the Germans on a French trench in the Oise region, which was easily suppressed, and articles and patrolling activities of a minor nature in the Verdun region, last night passed in quiet along the French front, the war office announced this afternoon.

THOSE AWFUL CRAMPS

Suggestions that may save
Much Suffering

Marysville, Pa.—"For twelve years I suffered with terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."

—Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Only women open and read such letters.

RUSSIA IN MARKET FOR LARGE SUPPLY OF REFRIGERATORS

By Associated Press.

New York, Jan. 21.—Purchase in the United States of refrigerating equipment to the value of \$30,000,000 to conserve and develop along economic lines the fresh beef and dairy industry of Russia has been authorized by the Russian-American conservation and industrial stock company, backed by the Russian government, according to J. H. Gullak of Moscow, who arrived here today on the steamship Bergenfjord, from Bergen.

Gullak is manager of the technical department of the purchasing company and he said today that the war has emphasized the need for the immediate development of the refrigerating industry of his country. Part of his purchases here, he added, will be 10,000 modern refrigerating cars, in addition to heavy machinery for cold storage and freezing operations.

"As an indication of the need of such development," he said, "butter now is selling in Moscow for three rubles and eighty kopeks a pound, while at the same time in Siberia butter is being used to make soap."

Turks Report That British Beaten in Battle

By Associated Press.

Berlin, Jan. 21.—Renewed attacks by the British east of Kut-el-Amara on the Tigris have been repulsed, the Turkish army headquarters announced in its statement of January 19. Heavy losses were sustained by the British in these operations and in an attack by Turkish cavalry on a British cavalry on this front. The statement reads, in part:

"East of Kut-el-Amara, the enemy delivered three attacks against a portion of our position. All were without success and the enemy suffered heavy losses."

"Troops of our volunteer cavalry attacked a brigade of hostile cavalry on the march. The enemy's losses were heavy. Our cavalrymen, in addition, captured three hostile machine guns and shot down one airplane, the wrecked machine remaining in our hands."

Spokane Hospital Burned; Patients All Saved

By Associated Press.

Spokane, Wash., Jan. 21.—St. Luke's hospital, one of the largest in the city, was partly destroyed by fire early to night. After the fire started the firemen reported that all of the patients had been removed safely from the burning building. Between 89 and 90 patients were in the building.

If you are going to heat your house, why not the best? See our gas burning hot-air furnace, demonstrating plant in our office. Torbett & Germond Co.—Adv.

AMERICANS PLAN ENORMOUS AMOUNT TO HELP BELGIANS

By Associated Press.

New York, Jan. 21.—The American commission for relief of Belgium is preparing for at least another year's work and the necessity for raising approximately \$150,000,000 more will be discussed by the officers of the commission here this week, according to Herbert C. Hoover, chairman, who arrived here today on the steamship Philadelphia, from Liverpool.

Hoover said that he would remain in the United States about a week and his sole mission was to discuss questions pertaining to the work of the organization. He declined to discuss the deportation of Belgians to the Germans. He added, however, that there now are approximately 11,000,000 persons in Belgium and Northern France dependent upon the commission.

Just what plans he has in mind to present to his colleagues, Mr. Hoover would not say, but he expressed himself as being optimistic that some means would be found whereby the work of the commission would not suffer through a lessening of the interest of America and other neutrals in the work.

The Right Honorable Sir Gilbert Parker, Bart. M. P., who has used his literary talent since the war began in the service of the entente allies in the field of the publicity also arrived on the Philadelphia. Sir Gilbert said he would remain in the United States about ten weeks visiting Washington and other large cities. His trip is primarily a vacation.

Vessel in Distress Believed Safe in Port

By Associated Press.

Boston, Jan. 21.—Wireless signals of distress from the Swedish steamer Scandinavica, three times repeated and the last call very faint, were picked up early Friday by the British freighter Start Point, here officers reported on the steamer's arrival from Liverpool today. As the Scandinavica's call gave no position and as the Start Point at the time was battling with a gale, it was explained no attempt was made to reach the distressed vessel.

The Scandinavica, bound from Galveston and Norfolk for Christiania and Gothenburg, is believed to be the vessel whose wireless calls for help sent from a position near Cape Race, N. E., were picked up by the tank steamer John D. Archbold and reported yesterday.

Mexicans Will Be Given Preference Over Foreigners

By Associated Press.

Queretaro, Mex., Jan. 21.—The constitutional assembly today approved an article of the constitution providing that Mexicans shall be given the preference over foreign-born citizens in regard to all concessions and for those posts in the government employ, the holders of which must be citizens.

The article provides that in time of peace no foreigner shall serve in the army or on the police force. In the navy it is necessary to be a citizen by birth and all captains, pilots and first engineers of merchant vessels must be citizens as must be two-thirds of the crews of such ships.

Bank Manager Denies Making Large Loan

By Associated Press.

Mexico City, Jan. 21.—The assistant manager of the Bank of London and Mexico denied today the bank had arranged to loan to the government 3,000,000 pesos, as previously had been announced by the treasury department. The department later announced that the deal had virtually been closed and that the papers probably would be signed tomorrow.

Noted Baltimore Surgeon Dies Sunday

By Associated Press.

Baltimore, Jan. 21.—Dr. John W. Chambers, a prominent surgeon of Baltimore and believed to be the first surgeon in the south to perform an operation for appendicitis, died today when on a visit to DuBois, Pa. Dr. Chambers was 64 years old.

VILLA FORCES ARE AGAIN DEFEATED IN PARRAL VICINITY

By Associated Press.

Chihuahua City, Mex., Jan. 21.—Gen. Francisco Murguia received a dispatch today from Gen. J. Hernandez, who is in command of the de facto forces in the Parral district, saying his forces had met and defeated a band of Villa followers at Rancho El Aguaje, near Parral, killing a number of them, including Elbio Contreras.

Gen. Juan Carrasco, one of Gen. Manuel Diez's commanders, who left Torreon with a column of 2,000, has reached Jimenez and will garrison Santa Rosalia and Parral, relieving forces to take the field against Villa, General Murguia announced today.

Villa was reported Thursday at La Juna, a small railroad station 100 miles west of Chihuahua City.

The residents in the Guerrero district are joining the home guards, which have been organized to police Western Chihuahua and drive out Julio Acosta and his Villa followers. General Murguia has issued a proclamation here giving all independent bands of armed men one month to surrender their arms and to return to their homes. He also called upon all residents to assist in eliminating Villa.

Georgia Banker Found Guilty by Jury

By Associated Press.

Tifton, Ga., Jan. 21.—A jury in the superior court here today returned a verdict of guilty against H. E. Ragsdale, former cashier of the Bank of Omega, Omega, Ga., who has been on trial for two days charged with having embezzled approximately \$10,000 from the state institution. The jury recommended that Ragsdale be sentenced as for a misdemeanor. Sentence probably will be passed tomorrow.

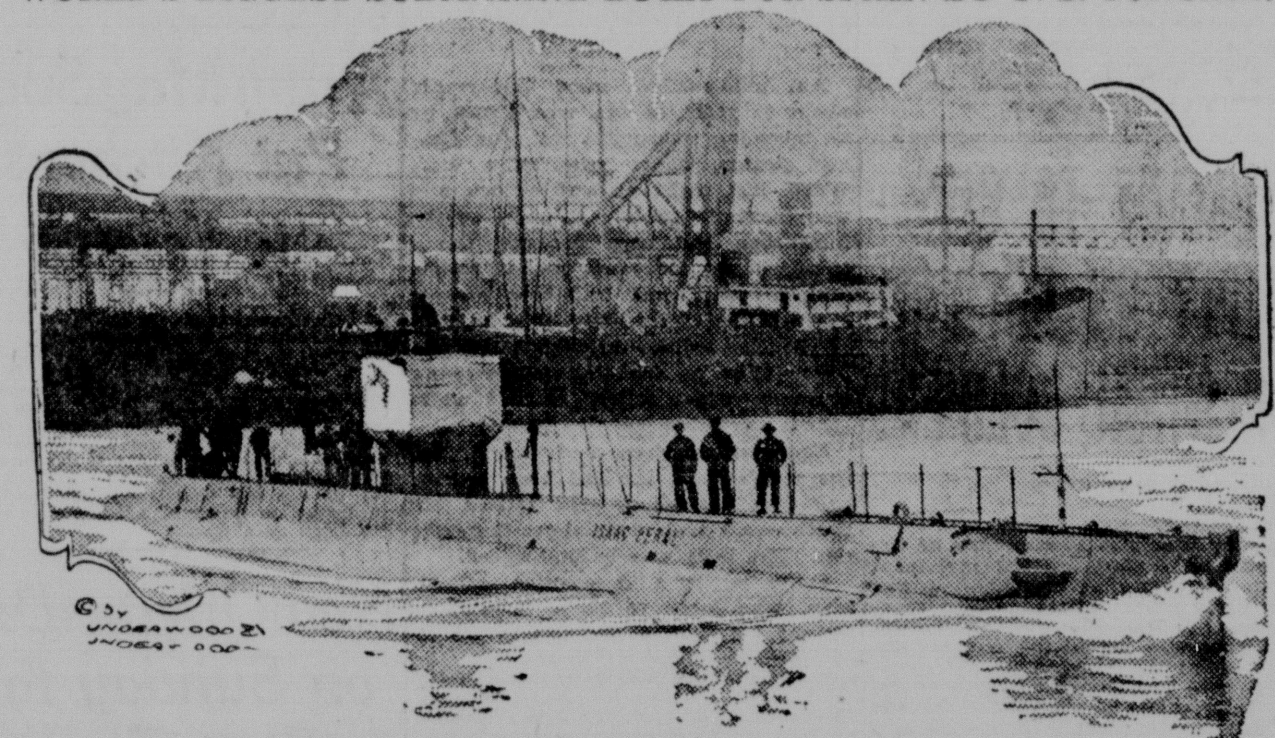

During the trial the state introduced as a witness a woman who testified that on January 18, 1916, she married Ragsdale in Hot Springs, Ark., under the name of Perry Burton. Ragsdale has a wife and child in Georgia and he denied on the stand the woman's charges. Mrs. "Burton," who is 24 years old, left today for Hot Springs, saying she would take legal action against Ragsdale.

Negro Puts Out Bomb Then Rolls Down Stairway

By Associated Press.

New York, Jan. 21.—A crude bomb, made of a tin can containing several pounds of powder, bolts and slugs, was found today under the stairway leading to the Manhattan street elevated station of the subway. The fuse was burning when a subway porter saw it. He quickly threw a pall of water on the bomb and then in his haste to escape fell down the stairway. He was injured so severely he had to be taken to a hospital.

WORLD'S BIGGEST SUBMARINE BUILT FOR SPAIN BY U. S. CONCERN

Submarine Isaac Peral leaving Fore River shipyards for practice tests at sea.

This submarine is the first war vessel to be built in the United States for Spain. It was built at the Fore River plant, Quincy, Mass., and was launched July 20, 1915, Senora de Riano being its sponsor. The vessel is 196 feet long, has a four-inch deck gun and four torpedo tubes and is capable of cruising 6,000 miles without renewing its fuel supply.

NATIONAL CONGRESS, RICH OF LEAK, WILL START PROGRAM

CONTINUED FROM PAGE ONE

merce committee is expected to meet early in the week, and Senator Newlands, disappointed at the refusal of the committee to recommend a strike prevention measure, will endeavor to maneuver the president's bill into position for reconsideration.

Before the house interstate commerce committee the hearing of labor organization heads on the railroad legislative proposals of Representative Adamson will continue. W. S. Stone, of the Brotherhood of Locomotive Engineers, will appear before the committee in opposition to any measure that might restrict the right of labor to strike. Notwithstanding the president's insistence on such legislation, the prospect for its enactment grows less probable as the time for adjournment approaches. There are few who believe that the president would demand an extra session to consider such legislation alone.

In addition to the press of legislative business, there is a spirited contest just now among democratic senators over the majority leadership to be relinquished by Senator Kern on March 4. When the new senate meets in extraordinary session immediately after adjournment to pass upon the president's cabinet, the selection of a new leader probably will be pressed. A real contest between southern and western democrats has been simmering for several weeks. Senator Walsh of Montana, is the candidate of the westerners for the leadership and Senator

Martin of Virginia, the choice of the southerners.

HOUSE HAS REVENUE PROGRAM.

Revenue legislation soon will be before the house for action. The revenue program, shaped by the ways and means committee, provides for \$289,000,000 in bond issues to meet preparedness and other expenses and for the raising of \$250,000,000 by an eight per cent tax on excess profits of business and by an increase of approximately 50 per cent in the inheritance tax rates.

The house will have another fight early this week over the river and harbor appropriation bill, which is the pending business.

The appropriation measures are getting under way. The fortifications bill is almost ready to report and hearings

have been concluded on the army, navy and military academy bills, and their framing in executive sessions is now in progress. The banking and currency committee is considering proposed administration amendments to strengthen the federal reserve systems.

Bills to prohibit the liquor traffic in Alaska and Hawaii are about to be reported from the territories committee of the house.

"BEST INVESTMENT I HAVE EVER MADE," SAYS BUSINESS MAN

T. N. MOODY SAYS HE IS FULL OF NEW LIFE AND ENERGY AFTER TAKING TANLAC—SUFFERED FIVE YEARS.

"I feel happy like a boy," said T. N. Moody, a well known merchant at Prairie Hills, while talking to the Tanlac representative in Morrison's Old Corner Drug Store, Waco, a few days ago.

"For five years," he continued, "I suffered from stomach trouble and indigestion. During all that time the pain was almost constant and sometimes so intense that I could hardly stand it. Always after eating, my stomach would swell up with gas and many a time I was in such a bad way I had to leave the store and go home and lay down.

"I couldn't enjoy eating because everything hurt me so and I had to leave off the things I liked best and confine my eating mostly to light flimsy things that have very little nourishment and strength in them. I was constipated, nervous and restless and could never get a good night's sleep. I tried all kinds of medicines but nothing did me but little, if any, good, and my condition kept getting more serious.

"So when Tanlac came to Waco and I read the kind endorsements of it in the papers I bought five bottles and I want to tell you it was about the best investment I ever made. It just seemed to take right hold of my troubles in a way that soothed my stomach and in a few days I began to feel a great improvement. I have taken only two of my five bottles so far but the good it has done me is wonderful and I can't express how thankful I am. The misery and pain has all left my stomach and I can eat fruits or anything else I want without hurting me in the least. Why, I ate some country sausage yesterday and it didn't hurt me a particle, and I certainly did enjoy it for it had been a long time since I could eat without suffering.

"I'm not constipated and nervous like I was, I sleep as sound as a dollar every night and get up in the mornings feeling rested and can look after my business all day without feeling tired and worn-out like I did before taking Tanlac. I don't know how Tanlac did it, but somehow it took all my troubles away and filled me with new life and I now feel as well and happy as I did when I was a boy sixteen years old. I just want to say to anyone suffering as I was that I consider Tanlac worth its weight in gold and I'm telling everybody I know about it."

Tanlac is sold in Waco by Morrison's Old Corner Drug Store, under the personal direction of the special Tanlac representative.—Adv.

Citizens Routed from Homes by Flood

Pittsburg, Pa., Jan. 21.—Floods resulting from a heavy rain on top of a three-inch snow caused creeks in Wheeling, Fairmont, Mannington and Farmington to overflow their banks, carrying away bridges and compelling many families to flee from their homes. Part of Weston, W. Va., was flooded to a depth of nearly seven feet while West Fork river was rising several inches an hour.

At the local weather bureau, it was said, no flood stage in the rivers here.

Rural Routes Hurt Small Merchants, Is Claim

Hallettsville, Tex., Jan. 21.—The establishment of rural routes and the advent of the parcel post are having their effect on country stores in this county. Several stores have recently quit business and they attribute their loss of business to the above agencies.

Will pay for the chance to heal Catarrh

After an experience of 25 years, during which time 50 million Americans have used Kondon's Catarrhal Jelly, the manufacturers of this remedy feel so sure that it will relieve catarrh—that they offer to pay for a chance to prove its benefits to any catarrhal sufferer. They announce that any resident of this community can get to almost any drug store and get a complimentary trial can at the expense of the manufacturers. If the drugist has no gratuitous packages, the person may buy a 25 cent tube with the unequalled understanding that if that first tube does not do that person more than a dollar's worth of good, he or she can get their quarter back from either the drugist, or the Kondon Company at Minneapolis. Over 35,000 drugists know Kondon's Catarrhal Jelly is effective, harmless, clean and pleasant to apply—and they know the Kondon people will gladly live up to this offer—"quarter back if not worth a dollar." Address—

KONDON'S CATARRHAL JELLY
MINNEAPOLIS, MINN.

MRS. WILLIAM ASTOR CHANLER SAILS TO RENEW RELIEF WORK

Mrs. Chanler saying goodbye at pier to children.

Mrs. William Astor Chanler, wealthy New York woman, is on her way to France, where she will take up again the work of relief, in which she has been engaged during the greater part of the last two years. She will also complete arrangements for the turning of the Chateau Chavaniac, birthplace of the Marquis de Lafayette, which was recently purchased by her, into what she terms a complement to Mount Vernon.

HUNDRED BODIES TAKEN FROM RUINS OF POWDER PLANT

By Associated Press.

London, Jan. 21.—Throughout Sunday thousands of persons flocked to East London hoping to satisfy their curiosity as to the effect of Friday's explosion in the munition factory there. None of them, however, were able to obtain a near view of the scene owing to rigid police regulations.

The newspaper reporters who were allowed to approach nearer the scene of what was formerly the site of the explosive store saw a hole a hundred yards across and eight feet deep, with masses of earth, iron and wreckage covering an area of about six acres around the hole. Within that area the destruction was absolute.

"For two days," said the Daily Mail's reporter, "soldiers have been digging in wreckage in the search for bodies. About a hundred have been recovered, but there are still more. It seems almost impossible to remove the thousands of tons of stone, earth, iron and wood, under which they are buried. On the whole, however, one is struck far more by the number of people who escaped than by the number killed. Judging from the fact that most of the factories were nearly empty and from the known proportion of casualties in certain houses, it does not appear that the death toll will exceed 300.

It would have been much greater had the explosion occurred later when the people had come to bed for they would have been blown away with the upper stories on their houses, whereas mostly being on the ground floors had a better chance to escape. The papers print columns of individual stories.

The destruction of the gas tank is described as having afforded an amazing spectacle. The tank did not explode, but its top was lifted off like a box lid and the 8,000 cubic feet of illuminating gas was liberated. Igniting, a column of flame rose to a height estimated at two miles, burned for a few seconds and then suddenly went out.

France Inaugurates Strict Sugar Saving Plan

By Associated Press.

Paris, Jan. 21.—Sugar cards are to be instituted in France. It is officially stated that the objects of the measure are to diminish the sea transport, reduce purchases abroad and avoid the export of gold.

The government has also decided that after February 1, all confectionery establishments must close Tuesday and Wednesday of each week, except holidays. During these two days the consumption is strictly forbidden of cakes, tarts and candies in confectionery and bread shops, hotels, cafes and groceries.

Switzerland to Protest Against Blockade

By Associated Press.

Berne, Jan. 21.—The German measure prohibiting all importations, news of which was received here unexpectedly, caused considerable excitement throughout Switzerland. The government will make remonstrances to Berlin as the entire economic situation of the country is affected by this species of blockade.

A Berlin dispatch by way of London on January 7, said the Bundesrath had adopted a measure prohibiting the importation of all commodities except by permission of the imperial chancellor.

Teutons Plan to Pay France Back in Own Coin

By Associated Press.

London, Jan. 21.—A Reuter dispatch from Berlin via Amsterdam, dated January 16 and delayed, says the German government announces its intention to make reprisals against France in the matter of prisoners. It is explained that France, having failed to reply within the specified time to Germany's demand for the removal of German prisoners from the fire zone in the area of French operations, Germany now will enforce her threatened counter measures by placing French prisoners in the German fire zone until the French fulfill the German demands.

Police of Chicago Recover Much Property

By Associated Press.

Chicago, Jan. 21.—Hundreds of dollars' worth of jewelry, silver plate and other valuables, said to have been stolen from wealthy homes in the Lake Shore drive section of Chicago, were recovered today by police in a raid upon William Friedlander, formerly a pawnbroker.

As a result the police have additional evidence apparently implicating Arthur Quinn, son of a north side politician; Louis Kohn and Friedlander, held in connection with the robberies.

Dies Hearing Star Spangled Banner Played

By Associated Press.

El Paso, Tex., Jan. 21.—As he stood at attention while the regiment band played "The Star Spangled Banner" at retreat late today in the fourth Ohio camp, Private Harry L. Baker of Marietta, Ohio, was shot and almost instantly killed when the rifle of his companion was discharged. A corporal of the dead guardsman's company is being held pending an investigation.

Captain Sterling Dies at Houston

By Associated Press.

Houston, Jan. 21.—Capt. B. F. Sterling, aged 85 years, an officer of the Wall's Texas legion in the war between the states and pioneer Texan, died here tonight with ten of his eleven children at his bedside. Besides his children, he is survived by twenty-eight grandchildren and nine great-grandchildren.

Historian Dead.

Brunswick, Ga., Jan. 21.—Dr. William Brannen Burroughs, historian of the Georgia Daughters of the American Revolution and widely known for his collection of war relics and historical documents and records, died at his home here today. He was born in Savannah in 1842 and served in the Confederate army during the Civil war.

TRADE COMMISSION MAKES REPORT ON FRENCH INDUSTRIES

By Associated Press.

New York, Jan. 21.—The American industrial commission to France made public today the first installment of an extensive report it is to make to the American manufacturers' export association, dealing with the condition which probably will confront the industries of France at the close of the war.

The American industrial commission was invited to France by the French trade commission, which visited the United States in 1915, backed by the premier and the ministers of finance and commerce. The American party consisted of fifteen business men under the presidency of W. W. Nichols, of New York.

The commission sailed from New York on August 26, 1916, and after landing at Bordeaux made a comprehensive tour of the industrial regions of France. The portion of the report made public today says in part:

READY FOR WORK OF RECONSTRUCTION.

"Even at this time, with the war raging, it was found that there is much reconstruction and new building ready to be undertaken. When peace comes the amount of construction of industrial plants generally will be large. This applies both to France and Belgium.

"In France alone, along the battle front, more than 400 factories have been destroyed.

"Since the war a number of companies in the north, unable to operate their mills, have started new plants in other sections of France, frequently so located that they will ultimately benefit from the exceptionally favorable water power in the Vosges and the Alpine regions.

"It is likely an industrial survey will be made to locate the plants where they can operate at the best advantage.

OPINION DIFFERS ON BEST PLAN.

"There are two currents of opinion in France as to future industrial requirements in regard to export. One is that French manufacturers should more generally engage in the manufacture of one kind of finished product.

"The opposing current of opinion is that the peculiar strength of French industries lies in the ability to turn out a great diversity of articles, each finished with artistic perfection in a way which other countries are not generally able to imitate, as it is the result of artistic endowment of the people itself.

"France and America are not likely to be serious competitors in the world market because their strength lies in different directions."

Sinn Feins Attack Speaker While on Platform

By Associated Press.

London, Jan. 21.—About fifty members of the Sinn Fein, carrying the Sinn Fein flag, rushed upon the platform from which Thomas London, nationalist member of parliament for the east division of Limerick was addressing a meeting in Limerick yesterday and assaulted him with clubs. London defended himself with a chair, but finally was beaten down and lay upon the platform bleeding. Later he was taken to a hospital.

The attack on London is attributed to a speech he made in the house of commons with reference to disarmament of the Irish volunteers.

Mexican Assembly Approves Several Articles

By Associated Press.

Queretaro, Mex., Jan. 21.—The constitutional assembly ratified thirty-five articles today, leaving thirty-two to be passed upon. President Rojas said he believed the assembly would be able to conclude its work by the last day of the month and that the new constitution would be promulgated on February 5.

It was decided today that six years residence is required to obtain naturalization in Mexico and that the presidential congressmen, senators and magistrates must be Mexicans by birth.

Convict Killed and Another Captured

By Associated Press.

Muskogee, Okla., Jan. 21.—Jack Taylor and Henry Vaughn, life term convicts, who escaped from the McAlester penitentiary nearly two months ago, were located in the Cherokee hills near Tahlequah this afternoon by a posse headed by Sheriff Davidson. In the fight that followed Taylor was instantly killed and Vaughn was captured.

CAPTAIN AND CREW TELL STORY ABOUT ABANDONING SHIP

By Associated Press.

New York, Jan. 21.—The story of their abandoning at sea of the American steamship Portland two days before Christmas was told here today by Capt. H. H. Rees and his crew of 25 men, who arrived as passengers in Norwegian steamer Bergensford from Scandinavian ports.

The Portland, burning oil as fuel, left Havre on November 20 for New York. Two hundred miles east of Nanuet she ran into northwest gales on December 7. While battling against heavy seas the fuel tank began to leak and all the oil was lost. To keep the engines working the crew burned everything made of wood and not needed to keep the vessel afloat. When the hatches were consumed the seas poured into the vessel.

The ship was blown some distance south of Bermuda and in that vicinity the Italian steamship Umbria tried to aid it. She stood by two days before a line was attached to the Portland on December 16. At night the line parted. Weather conditions made it impossible to give assistance and the Italian vessel drifted from sight in the darkness.

The waterlogged Portland was tossed about until December 23, when the Norwegian steamer Brazil, bound from San Francisco to Christiania, sighted her and took off the crew. The captain and his men were landed at Kirkwall and boarded the Bergensford when that vessel put into that harbor.

The Portland registered 1,800 tons net and was owned by the Kerr Steamship company of New York.

English House of Lords Outnumbers Commons' Members

By Associated Press.

London, Jan. 21.—The House of Lords this year, for the first time in history, has more members than the Commons. The membership of the lower house is fixed at 670, while the roll of the upper house has increased during the past year by nineteen, to 673.

The House of Lords would have been still larger but for the fact that minors succeeded to several peerages, while three peerages became extinct through lack of heirs—the baronies of Fitzharding, Llangattock and Somerhill. Twenty-one new peerages were created during the year, including Lords Astor, Hereford, Rhonda, Shaughnessy and Viscounts Grey and French. There are five new peers, whose choice of titles has not yet been announced—Max Aitken, John Dewar, J. A. Paine, Stuart Wortley and Edward Partington.

Six titles have been temporarily removed from the roll of the house by the succession of minors to the earldoms of Faversham, Longford, Kinross and St. Aldwyn, and to the viscounty of Ridley and a lady to the barony of Lucas. The barony of Scarsdale has lapsed, because the heir already held a higher grade in the peerage, Earl Curzon of Kedleston.

Three peers who were "infants" at the opening of last year—the Earls of Carlisle and Lathom and Viscount Gage—have since come of age. In addition to the four peers whose death led to the extinction of titles and to the six who were followed by children, the earls of Longford and Faversham and Lord Kitchener died on war service. Other deaths included Lord Burnham, the Earl of Sandwich, Lord Redesdale and the Earl of Essex.

Five old baronies were revived during the year and another old title was restored in the granting of a viscounty to Lewis Harcourt.

United States Has Millions of Miles of Roads

By Associated Press.

Washington, Jan. 21.—There are about 2,452,000 miles of public roads in the United States outside the limits of incorporated towns and cities the department of agriculture estimates. Only 277,000 miles, or 11.3 per cent, are improved with some form of surfacing. Surfaced roads are increasing at the rate of about 16,000 miles a year.

Infantile Paralysis Again.

By Associated Press.
Palmont, W. Va., Jan. 21.—Three additional cases of infantile paralysis were discovered in this vicinity today, according to an announcement by local health officials.

RADIUM LACE NEW THING FOR WAISTS; DRAPED POCKETS SEEN IN NEW SKIRTS

Pockets are becoming quite a distinctive feature of miladi's frocks and dresses. The draped pocket in this gown is strikingly novel and quite pronounced. The delicate blouse is of silk radium lace and Paisley georgette and the two go to make one of the most pleasing combinations seen yet. The hat is of the turban style, slightly remodeled and adorned with a pom pom.

Forty Believed Killed in Railroad Wreck

By Associated Press.

Amsterdam, Jan. 21.—A Vienna dispatch to Berlin Lokal Anzeiger says that forty persons are reported killed in the wreck of Triest-Vienna train in Styria.

The train was struck by an enormous rock and another train which went to the rescue dashed into the wreckage, causing additional deaths.

Sweden Consolidates Banks to Improve Old System

By Associated Press.

Stockholm, Sweden, Jan. 21.—Borras Private Bank has been consolidated with the Bank of Southern Sweden, a further move in what appears to be an almost epidemic strengthening of Sweden's banking facilities, which began two or three months ago with various consolidations and capital increases. The new organization will have a capital of 30,000,000 crowns and a reserve exceeding 15,000,000.

New York Broker Sees No Peace for This Year

Special to The News.

New York, Jan. 21.—E. H. Clarke of New York, in his market letter this week confidently predicts no peace in 1917. He bases his assertion on private advice which he has received from the leading capitals of Europe and declares that his correspondents possess unusually good sources of information. "All belligerents want peace," says Mr. Clarke, "but developments have proved that peace is possible only on terms set forth by the allies. Germany cannot accept such terms in view of her territorial gains and the innocent belief among the German people that they are winning the war. Evidence accumulates to show that the food crisis of the central powers is acute but I can state with confidence that it is not sufficiently acute to induce the people to accept peace on any terms but their own. Germany is hungry but her people are willing to endure much greater hardships rather than have peace without honor. The allies are in no position now to enforce their terms and will not be for another twelve months."

Plain Ship Needed.

By Associated Press.
London, Jan. 22.—The Times today says it understands instructions have been given to several shipyards to cease work now in progress on high class liners, and devote the labor of building of plain cargo ships.

French Boxer Killed.

By Associated Press.
Paris, France, Jan. 21.—George Bernard, the middleweight champion pugilist of France, was killed yesterday while making a flight. He enlisted in the aviation corps at the beginning of the war when he was only nineteen years of age.

TEXAS FARM FACTS.

This compendium of facts about Texas farms deserves to be circulated "from Greenland's icy mountains to India's coral strand." It is taken from a publication issued by Cravens & Cage of Houston:

"Texas has more farms than any state in the Union—417,770 in number. "Eighteen new farms are opened up in Texas every day.

"The Texas farms produce \$662,598,000 annually.

"The value of all Texas farm property is \$2,218,645,000.

"Texas has more farm home owners than any state in the Union.

"Fifty per cent of the wealth of Texas is invested in agriculture.

"The value of the average Texas farm is \$5,311; of this amount \$3,909 is invested in land, \$502 in buildings, \$136 in implements and machinery, and \$763 in livestock.

"The average value of Texas farm land (improved and unimproved) is \$14.53 per acre.

"About 22 per cent of the Texas farms are mortgaged. The mortgage indebtedness is approximately \$225,000,000.

"The approximate land area of the state is 167,934,720 acres.

"The uncultivated area in Texas is larger than the thirteen original colonies excepting Georgia and North Carolina.

"The uncultivated area of Texas could support all the people of the United States, using as a basis of calculation two acres per capita, which is the world's average.

"Texas has room for 4,000,000 more farmers.

"At the rate we are securing farmers it will take 400 years to thoroughly develop the agricultural resources of Texas.

"There are seven large counties in Texas each one of which has an uncultivated area larger than the state of Delaware.

"Twenty-five per cent of the world's cotton is produced in Texas.

"Cotton yields the Texas farmers \$1,000,000 a day.

"The grain belt of Texas is as large as the combined areas of the states of Massachusetts, Connecticut and Delaware.

"The yearly Texas corn crop is worth more than the annual gold production of the United States.

"Growing crops in Texas are annually damaged \$20,000,000 by hailstorms.

"Texas produces 28 per cent of the rice raised in the United States.

"Texas hay and forage crops have an annual value of \$15,000,000.

"The Texas range grows 19,000,000 worth of wild grasses annually.

"Texas produces \$31,000,000 worth of fruit and vegetables annually.

"Texas has more cattle than any other state.

"It costs \$50,000,000 to feed Texas livestock one year."

DRY NATION IN SIGHT.

Eighty-five per cent of the territory of the United States is dry by prohibitory or local option laws. Forty-eight per cent of the population lives in dry territory. August A. Busch, president and principal owner of the Anheuser-Busch Brewing association, is afraid the time is too close at hand when the entire territory of the American Union will be dry and hence all the citizens of the United States a living in dry states. The breweries are conceiving practical schemes to postpone this. Here are some of the plans for postponement suggested by Mr. Busch:

"A strict enforcement by state authorities of all excise laws.

"The establishment throughout the country of the German saloon system, which permits only beers, light wines and temperance drinks to be sold in dramshops.

"Co-operation by brewers with the state authorities to put out of business every saloonkeeper who does not obey the excise laws.

"Abolition of treating in saloons, to discourage drinking to excess.

"Discontinuance of bars in saloons, all service to be given at tables, at which customers will be seated."

WAR—A FIGHT TO FINISH.

Reports from Berlin, supposed to be official, say the German grain crops of the present year exceed those of last year by 4,000,000 tons, of which 1,500,000 are breadcorn. While the potato crop is said to be inferior, the beet crop is excellent. Stocks of horned cattle, so the reports say, have increased since the beginning of 1916, more than 400,000 head, or 2.1 per cent. Hogs have increased about 29.4, or about 400,000,000 in number, for the year. Booty from Rumania guarantees an increase in fodder supplies. If these figures are correct, Germany is not likely to sue for peace any way soon on account of the lack of food supplies. Any one can prophesy as to when the war will end, but indications are that it will be a fight to the finish. It looks as if either the allies or the central powers will be beaten to their knees before the dove of peace will light in Europe.

Candidates for positions on the staff of the Crimson, the publication of the students of Harvard university, recently withstood some equivalent hardships of editors and reporters in an effort to get on the reportorial staff of the paper. In the icy blasts and driving snow, seven of the candidates danced in skin tights and ballet skirts to show their endurance. One candidate, to prove his patience, measured the length of a block with a frankfurter as a measuring stick, and found the distance to be more than 1,000. Another would-be pencil pusher was assigned the task of finding the prettiest chorus girl in town and comparing her charms to those of Venus. Men who can do such things, and find some degree of enjoyment in them, ought, with enough perseverance and patience, to make cub reporters and one out of several hundred ought to be an editor some day.

Grain growers and dealers say the recent snow and rain in the wheat belts of Texas benefited the state to the extent of a round billion. A dry December, a wet January, bumper crops, rich pasturage, peace and plenty in the Lone Star state. Grand is Texas!

Ticks cost the farmers of the South \$50,000,000 a year. Texas farmers pay their part of the cost. The movement by State Senator Hudspeth providing for statewide tick eradication by law is progressive. It should be looked upon with favor by every friend of the livestock industry in Texas.

MATTERS OF HABIT.

Idleness and dullness are twin wastrels, the greatest spendthrifts in the world, prodigal of time which may not be replaced. Idleness is a crime, and dullness is inexcusable. The world and its everyday wonders should be incentives to the dull mind, and on every hand are tools with which to sharpen one's wits, increase one's powers of observation and stir one to worthy ambitions.

Idleness breeds dullness, and dullness breeds idleness. Dullness is the sequence of an inactive mind, the result of idleness. As a piece of machinery rusts and eventually becomes valueless through disuse, so too will a man become rust-covered and his mind of but little value by not exercising his God-given faculties of observation, resulting in an active mentality. A dull mind wastes time and an idle mind wastes time. They are twin evils, for "each day is a little life," and the man who knows most, most regrets the loss of time.

Idleness and dullness are the result of habit, and contribute neither to the happiness nor the efficiency of mankind. These habits are formed in earliest life, generally long before the parents of the child give any heed to the problem. The idle boy develops into the dull witted man, a spendthrift prodigal of time and blind to the world wonders surrounding him. The hand of time is laid gently on the man of active mind, but seldom on a spendthrift of time, and he has lived many lives compared with his dull witted fellow, when the final summons comes. The one sees in the mountains and their glory of painted leaves a picture colored for him alone. The sun's good-night in a blaze of splendor is for his special delight and his nerves tingle. The song of the busy streets, the music of nature and of man, have been composed for his own inspiration, after centuries of toil and effort. The world is so full of wonders that he treasures his time carefully that he may observe and marvel and profit by his observations of these miracles, and books, friends, education, ambition, love, music, religion, progress and happiness are his if he wills. To the dull witted spendthrift of time the world is gray and dreary, a place of drudgery and toil. He lives his little life, but when he enters the gates of eternity he has not lived at all—his dull mind has wasted his time, he has kept daily company with the twin wastrels—idleness and dullness.—Asheville Citizen.

No wonder Billy Sunday is having such a hard time to convert Boston. Why, even the streets are crooked!—Milwaukee News.

Marlin, Jan. 21.—The year book for 1917 of the Woman's Auxiliary of the First Baptist church has been completed for distribution. It is attractively arranged and is complete in every way. The officials for 1917 are the following well known ladies: President, Mrs. R. E. Tomlinson; first vice president, Mrs. W. E. Hodges; second vice president, Mrs. Inez Norwood; secretary, Mrs. W. L. Wood; assistant secretary, Mrs. A. O. Curry; treasurer, Mrs. J. M. Kennedy; corresponding secretary, Mrs. F. E. Halley; press reporter, Mrs. B. C. Curry; censor, Mrs. Sam Peyton; organist, Mrs. C. G. Howard; Sunbeam leader, Mrs. W. R. Nettles; assistant Sunbeam leader, Miss Annie Hunnicutt; Y. W. auxiliary met January 15 and elected their mission study for this year. Notwithstanding the fact that the mercury had dropped very low and very cold weather prevailed, there was a very good attendance. "Southern Baptists in Regions Beyond" is the text book. An inspiring devotional from H. C. 8:4-9, I Thess. 5:17, and 25th and Eph. 6:18-19, using the necessity of prayer and supplication in the spirit for making known the gospel and the importance of giving cheer and love freely was led by Mrs. Inez Norwood. The war savings committee, by Mrs. J. M. Kennedy. The Tasks, by Mrs. W. E. Kyser. The Judson Centennial Fund, Mrs. Fountain. Promoting Missionary Education, Mrs. Wood. and the Women's Missionary Union to foreign lands, Mrs. Tomlinson, completed the afternoon's program. Charts were used in the study which made it very interesting.

ENGLISH HOUSEWIVES WRITE HOW THEY ARE ECONOMIZING

By Associated Press.
London, Jan. 21.—How the members of parliament are carrying out war economy in their own households is revealed in a series of letters obtained by the war savings committee from wives of members of both houses.

"We are cutting down indoors and out by putting an end to all luxury," writes a peeress. "My husband and I are doing without maid or valet, tobacco, motor, sweets, chocolates, theatres, motoring, traveling, holidays, visiting, entertaining, shooting, horses, and are economizing to the utmost in the matter of clothing and evening dress.

Another letter, also from the wife of a member of the house of lords, says: "The castle has been closed and only a few rooms in one corner are occupied. We have ourselves moved into small rooms, having dismissed all the staff except four of the older women servants, thus making drastic reductions in every possible direction. The fireplaces have been rearranged and coal savers put in. Out of doors no man eligible for the army has been retained. Our cottages are all given rent-free and in addition the cottagers are provided with coal and wood free. The wages of our workpeople have had to be raised to meet the cost of living. Only girls are now employed in the gardens, where potatoes are grown in the flower beds and the lawns used for hay. The stock of deer in the park is being systematically reduced for food supply. Keepers have gone, and at the estate office the bailiff's work is being done by a lady."

The wife of a member of the commons writes: "Personally, I have

economized in every way I can. I now do with only three servants. I have given up my motor car and I never eat meat more than once a day. I have no bedroom fire, and I buy practically no clothes. I have put every penny I can spare into the war loan. I have sold all my American securities. But I don't think that my example has had the slightest effect upon the people around me. I have held several meetings in the constituency to urge war economy, but people hate these meetings, and they are having the time of their lives."

The wife of another member of the commons writes: "My pin-money has been reduced to a minimum, as I am devoting all I have to maintaining a Red Cross convalescent hospital. In my own household no sugar or iced cakes have been allowed for some time except at Christmas. No dessert sweets have been allowed since the war, and cream only on Sundays. Cakes have been reduced in the dining room and in the servants' hall. No wine and after dinner coffee is served except to guests; fires have been cut down and wood logs used instead of coal where possible. Dinner has been cut down and meat is served only once a day, except for an occasional rasher of bacon at breakfast."

The committee has received replies to its questions regarding war economies from the wives of nearly 200 members of the two houses of parliament. The replies are to be circulated throughout the country during the next two months in connection with a campaign for obtaining pledges of household economy from housewives.

Chicago Captain of Police Confesses, Says Attorney Hayne

By Associated Press.
Chicago, Jan. 21.—Police Captain Stephen K. Healy, indicted in connection with the charges of police graft, has confessed, Maclay Hoyne, state's attorney, announced tonight. Hoyne said Healy's confession implicated former Superintendent of Police Charles C. Healey, also under indictment; Oscar De Priest, a negro alderman, and others said to have been linked with the manipulation of the alleged corruption syndicate.

The announcement was an outgrowth of an investigation undertaken by Mr. Hoyne following charges that bribery and to allow violation of Sunday closing laws and to permit disorderly houses and gambling resorts to operate.

British War Office Confers About Eastern Progress

By Associated Press.
London, Jan. 21.—The war office communication issued today concerning the operations in Mesopotamia says:

"The enemy has been expelled from a small strip on the right bank of the Tigris northeast of Kut-el-Amara. The whole trench system on a front of 2,500 yards to a depth of 1,100 yards now in our hands and the right bank of the river from Kut-el-Amara downstream has been cleared of the enemy. Further progress has been made against the enemy's trenches on the right bank southwest of Kut-el-Amara."

Officers Found Gambling in Morgue

By Associated Press.
Chicago, Jan. 21.—Two detective sergeants and a policeman were arrested on charges of gambling in a morgue today upon the morgue of a downtown undertaking company. According to the police, who arrested four other men, only a curtain separated the card table from two bodies being embalmed.

Gabriel snubbers save my car, save my springs and save me. Percy Willis Auto Co.—Adv.

Real Estate Loans Surpass Bonds of Railroads

By Associated Press.
New York, Jan. 21.—Real estate mortgage loans on farm and city property have surpassed railroad bonds as the largest single class of investments held by life insurance companies, according to a report made public here tonight by the Association of Life Insurance Presidents.

The report, prepared by Orlow H. Boies, the association's statistician, shows that in the ten-year period, from 1904 to 1914, real estate mortgage loans increased from 27.37 per cent of the assets of American companies to 34.46 per cent.

Image of Chinese Goddess Bought in New York

By Associated Press.
New York, Jan. 21.—A stone image of Kwan-Yin, Chinese goddess of mercy, has been purchased from Paul Poirot of Paris by a firm of Fifth avenue art dealers for a sum said to have been close to \$200,000. It was learned tonight. Poirot has declared the image was his original model for the style known in this country as "the debaucher slouch." The image is seven feet tall and weighs more than a ton.

Vanderbilt Invites Many to Attend Convention

By Associated Press.
New York, Jan. 21.—Horse show associations throughout the United States have been invited by Reginald C. Vanderbilt to send delegates to a convention to be held in this city on January 30, it became known tonight, in an effort to bring about a more thorough understanding and to consider formation of a national organization of horse show associations.

WOMEN WAR WORKERS HOLD EXPERT TECHNICAL JOBS; SUCCESSFUL AS MEN

Woman welder at work.

Women are not only taking over the work formerly done by men that required little or no experience, but they are also taking over the real hard technical tasks. Here is shown a woman welder welding two large joints midst the pyrotechnic display. Acetylene welding requires considerable instruction and the women are becoming as efficient as men.

It seems there is not a thing a woman can't do if she wants to. She has successfully coped with every situation that has arisen since the great shortage in male labor on account of the war. It is going to be much harder after the war to find the line of distinction between what would be considered male and female work.

Mooreville

Mooreville, Jan. 21.—Mooreville has experienced the coldest weather of the season. The rain that fell was frozen by the time it reached the ground.

Dr. C. C. Hawkins had a stroke of paralysis Friday night.

Miss Ruby Hawkins, Ray Hawkins of Bartlett, Harvey Hawkins of Waco were all called to their father's bedside Friday night.

Miss McKinney, the principal of the Mooreville school, has been sick the last two days.

The Mooreville and Cero basketball girls played at Mooreville. The score was 13 to 6 in favor of Mooreville.

Miller and Vines Brock, Emma and Pauline Reinke, Viola Brock and Beula Marcum visited the home of Mr. and Mrs. Flowers at Eddy Sunday.

Chilton

Chilton, Jan. 21.—R. A. Bell is walking on crutches, the result of getting his leg caught in some lumber he was unloading when it slipped on the wagon.

N. A. Culverhouse has been confined to his room for several days with la grippe.

J. H. Featherstone, who has been sick since Christmas, is some better.

J. W. Bryant is also reported improving.

R. M. Dickson and family of McClanahan are over for a few days.

Tom Livingston and mother are moving to Wichita Falls, having sold their home here to Mrs. Jones, who will move in soon.

Mr. and Mrs. J. E. Young are on the sick list this week.

Dr. S. P. Rife of Marlin came through town today en route to Mooreville to see Dr. Hawkins, who has been seriously ill for several days.

Miss Irene Freeman, who is attending school in Marlin, is spending the week-end at home, she being exempt from examinations.

Ed Gray is the owner of a new car which he tried out last week, by taking E. T. DeGraffenreid, T. L. Laughlin, E. P. Stanley to Waco and W. A. Miles of Marlin was here visiting relatives last week.

GERMANY HAS SHOWN WONDERFUL ABILITY TO PRODUCE THINGS

**SUBSTITUTES AND IMITATIONS
HAVE MADE UP FOR MOST OF
CHEMICALS AND EVEN FOOD-
STUFF THAT COULD NOT BE IM-
PORTED AS USUAL.**

By Associated Press.

Berlin, Jan. 21.—The extent to which substitutes and imitations are rampant in Germany today form one of the most interesting subjects of the now reasonable reviews. The "ersatz"—the German word for substitute—is now common not only in the line of foodstuffs but in the chemical industry, textile and metals. Though from time to time indications of this change in German life have become known abroad, there have lately appeared interesting summaries which afford a sharper focus on the situation. Some of the items in this development, under their respective heads, are as follows:

Salt peter: Before the war Germany imported annually over \$40,000,000 worth of salt peter for agricultural and ammunition purposes, mainly from Chile, and all of this regular supply was lost at the outset of the war. Today countless factories in Germany are manufacturing salt peter, whereas before the war there were only a few such experimental establishments, and Germany is now able not only to supply the increased amount of salt peter necessary for ammunition, but also has been able to furnish all that is necessary for fertilizers.

Aluminum: Before the war the supply of bauxite for the manufacture of aluminum had been imported from France, and the cutting off of this supply led German scientists to discover a process of aluminum manufacture by electricity from ordinary clay.

NEW WAY EXTRACTING OIL FROM COAL.

Mineral oils: Chemical experts in the German coal fields have discovered new ways of extracting oils from their coal, partly relieving the serious condition resulting from the cutting off of mineral oil imports which, in 1913 amounted to no less than \$277,000,000.

Rubber: Germany lost practically all of her imports of rubber, and to offset this shortage she began substituting steel for rubber in innumerable cases where rubber had been used purely for its elasticity. Further, the perfection of the submarine merchant ship made it possible to bring in enough rubber to mix with the old in the creation of a regenerated or synthetic rubber. The supply of this has been developed until now it is said to be sufficient to last for another eight months.

Graphite: Ceylon was the exclusive source of supply of graphite used in Germany before the war, because the Ceylon graphite was ninety-nine per cent pure. Since the beginning of the war Germany has been dependent entirely upon the inferior Bavarian graphite, but German chemists have been able to find a process by which the Bavarian article can be purified to a ninety-seven per cent standard.

Rosin: Supplies of this had come exclusively from America and France, but German chemists have now become able to produce all that is needed from the German forests, or are able to use a substitute for rosin the by-products of wood and coal.

MAKES THREAD OUT OF PAPER SUBSTANCE.

Textiles: Paper has been adapted in innumerable instances to serve for cloth. By using protoxide of sodium, sulphite cellulose and paper, a very durable and satisfactory thread has been evolved, which, in turn, lends itself to the creation of socks and bags, girdles, dollies, aprons, working garments, wrapping cloth and thread and string. The inventors have discovered a way to give the "paper-cloth" great resistance to dampness. Cellulose has been found to lend itself to the production of gun cotton when combined with other chemicals, and nettles have proved themselves to be the source of cotton batting, thread, yarn, coloring matter and even to feathers. Dresses and other clothes are being manufactured out of artificial cotton and wool, as they sometimes were in peace times. Even the reeds that grow on the banks of lakes and ponds are being used to make artificial cloths.

Copper: Almost the only "unsubstitutable" substance has been copper, but there has been found to be plenty of that on hand in German industrial plants and elsewhere. In place of the copper thus taken by the government there have been installed aluminum and zinc, out of which various utensils of various sorts have been fashioned, with perfect success. In addition zinc has been found to do just as well as copper in the manufacture of a score of articles for everyday use, and is a good substitute also for brass and bronze. Iron and steel also substitute satisfactorily in dozens of other cases, and are now largely used in installing apparatus of all kinds in place of rubber, copper and brass. Zinc and aluminum and zinc iron find their use now in switchboards and

A GOOD FRIEND

A good friend stands by you when in need. Waco people tell how Doan's Kidney Pills have stood the test. Mr. Bahl endorsed Doan's over four years ago and again confirms the story. Could you ask for more convincing testimony?

J. P. Bahl, prop. Metropole Barber Shop, 818 N. Sixteenth St., Waco, says: "Kidney complaint caused me such suffering. I had a feeling of heat and headaches and dizzy spells. Sharp twinges darted across my back, as if a knife were thrust into my body. I was very nervous and couldn't rest well nights. One box of Doan's Kidney Pills soon regulated the action of my kidneys and removed the pains throughout my body."

(Statement given December, 1911). On May 15, 1916, Mr. Bahl said: "Colds sometimes disorder my kidneys, but I can rely on Doan's Kidney Pills to give me relief." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bahl has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

At the Auditorium.

Pleasure, Youth and Passion, three central figures in the modern morality play, "Experience," at the Auditorium tonight and Tuesday matinee and night.

the like in place of marble or slate.

MANY MILLION FOR FOOD SUPPLY.

Foodstuffs: Imitations have played almost, if not as large, a part as substitutes for foodstuffs of which a shortage has been created by the war. Many of the imitations are of doubtful nutritious value, some of them have proved dangerous, but the authorities have kept a watchful eye on the situation and have promptly put the ban on the bad imitations and required the proper labelling of the good ones. The grain supply of the empire, originally not near enough for the consumption of seventy millions of people, has been "stretched" by potato flour, and now that the potato flour is almost a failure potato flour will itself be substituted by barley during the first half of 1917.

When the coffee began to run short its consumption was reduced, and Germany took recourse to admixtures of chicory, roasted grain, so-called "fig coffee" and coffee extracts. Tea, which, also is short and expensive, has been gradually replaced by extracts from home grown berries and herbs. Germany has learned to alter its tastes somewhat and to be content with brews that are probably just as wholesome as tea but quite the same in appearance and contents.

Kansas Man Held on Charge of Killing Babe

By Associated Press.

Toronto, Kan., Jan. 21.—Walter Harold, 23 years old, was arrested this afternoon charged with the murder of his 3-month-old baby daughter as it lay asleep and the attempted killing of his 18-year-old wife. Mrs. Harold was dangerously wounded. After the shooting Harold tried to kill himself, the police said, but was only slightly wounded. The Harold family lived with Mrs. Harold's mother. Mr. and Mrs. Harold and Mrs. Thorn came to this city from Oklahoma last fall, authorities say.

British Steamer Vauban Arrives at Bahia

By Associated Press.

Rio Janeiro, Jan. 21.—The British steamer Vauban has arrived safely at Bahia.

The Vauban, a Lamport and Holt liner of 10,660 tons, sailed from New York on January 7 for Rio Janeiro with passengers and freight. Some uneasiness was felt in shipping circles regarding the Vauban as her course was taking her into the zone of the raiders' activities.

Four Killed When Train Strikes Automobile

By Associated Press.

Jackson, Mich., Jan. 21.—Four men were killed outright and one fatally injured at 7:30 o'clock this morning when a Michigan Central eastbound train struck an automobile seven miles east of this city. On account of a blinding snowstorm the driver of the car did not see the approaching train.

Well Shooter Killed in Kansas

By Associated Press.

Chautauqua, Kan., Jan. 21.—"Mac" Stephenson, a well shooter, was blown to pieces near here this morning when 1,200 quarts of explosive blew up. The explosion was felt for twenty miles around. Stephenson was alone when the explosion occurred, it is believed. His home was in Tulsa, Okla.

To keep railroad tracks clear of weeds and brush a South Dakota man has invented a mowing machine, operated by a gasoline engine, to be mounted on a hand car.

AT THE HIPPODROME

Star of "Nina, the Blind Flower Girl," today and tomorrow.

THEATRES

HIPPODROME.

"Nina, the Flower Girl."

A remarkable story of unselfish love and devotion is "Nina, the Flower Girl," showing at the Hippodrome theatre today and tomorrow, and starring pretty Bessie Love. Written by Mary H. O'Connor of the Fine Arts scenario department, the story deals in a most human manner with a little girl who makes artificial flowers to support herself and grandmother, and sells them on the streets. Jimmie, a crippled newboy, is her best friend and chum. Nina is blind, and Jimmie, with touching love guards her as she sells her wares and makes the bare tenement district where she lives a veritable flower garden to the little girl. He also makes her believe that he is a tall, straight young Apollo, because she is happier in this belief. Jimmie's feelings, then can well be imagined when he learns that Nina has been taken by wealthy people interested in her and operated on for restoring her sight. The operation is successful, and the little girl is unbelievably happy until she despairs of Jimmie's coming to see her. Jimmie cannot bear to have her know that he is a cripple, so stays away from her. But fairness in the form of kind-hearted people again take affairs in hand, the boy and girl are made happy again in their comradeship. Elmer Clifton plays the boy Jimmie with a

splendid understanding of the role, and Bert Hadley heads an excellent supporting cast.

AUDITORIUM.

"Experience."

"Experience," the great morality play presented by William Elliott, F. Ray Comstock and Morris Gest, will be at the Auditorium theatre today and tomorrow. The performance is direct from a nine months' engagement in New York, seven months' engagement in Chicago and five months' engagement in Boston. The story, written by George V. Hobart, tells of the trials and temptations of youth. Comstock the company are eighty-two persons. "Experience" has been pronounced by critics to be one of the greatest plays on the American stage.

COLUMBIA RECORDS TO INCLUDE SELECTIONS BY MARIA BARRIENTOS

Maria Barrientos who was the one big sensation of the Metropolitan Opera season of 1915-16, has signed a contract to make voice-recording exclusively for the Columbia Graphophone company, and has already made three splendid recordings that show her marvelous soprano at its best.

Mme. Barrientos' first recordings, so significant in the world of music, include her great triumphs, the famous "Mad Scene" and the first act aria "Silence O'er All" from "Lucia," and a marvellous bit of coloratura work, the "Valse" from Gounod's "Mireille." These recordings are issued in the January Columbia record list coincidentally with another recording by Lazaro, acclaimed as the greatest tenor of the age: "Spirito Gentil" from "La Favorita." These splendid numbers, according to the Goldstein-Miguel company, who agents for Columbia machines and records, have already scored a big hit with Waco music-lovers.

This most notable record announcement also includes recordings by Kathleen Parlow, who plays the immortal "Last Rose of Summer," by Godowsky, who renders Liszt's "Paraphrase on Rigoletto," by Lucy Gates, who sings the coloratura gem, and by Vernon Stiles, the new American tenor, who is introduced with "The Sunshine of Your Smile." Oscar Seagle, the American operatic baritone, turns his talents in a new direction by giving a splendid version of "The Ninety and Nine" and Paul Dufault and Jean Cooper make their debut in the music-recording world.

CONTRIBUTIONS OF CHICAGO SYMPHONY ORCHESTRA.

Effective March 9th, 1916, at 12:01 A. M. Orchestra contributes two tremendous recordings: the prelude to "Lohengrin" and the procession from "Parsifal," while the fine orchestral scores from Diaghilev's Ballet Russe is continued with the recording of "Les Sylphides" under the direction of Ernest Ansermet. Two operatic overtures, some Spanish light music, and two popular Greek compositions are added by Prince's orchestra to a truly brilliant orchestral list.

The list is a "headline" list all through, from the operatic to the popular end. The part classified as "popular" is led by Al Johnson, probably the best known comedian on the American stage, who sings "Someone Else May Be There While I'm Gone," one of his latest Winter Garden hits, and by Fannie Brice, the young vaudeville star, who gives her newest specialty success, "If We Could Only Take Her Word." Added to these are such genuine song hits as "There's a Rose in the Waltz Song" from "Miss Springtime," "Give Me All of You" from "Flora Bella," "Everybody Loves an Irish Song" and "The Loveliest in Your Eyes." Needless to say, the six dances listed are as brilliant as Columbia dance records usually are, and the remainder of the list as varied and interesting as any that Columbia ever announced. These are the quartet from "The Gondoliers" sung by an ensemble composed of Florence Macbeth, Margaret Keyes, Morgan Kingston and Frank Croton, all artists of international reputation; there are tenor triumphs by Charles Harrison; vocal quartettes; children's songs and stories; banjo, ukulele and cimbalom novelties—an offering that does credit to the versatility of the Columbia company. In variety as well as musical value, this list is well called their "greatest list" by the Columbia Graphophone company.

Pastor Gives Sermon on "Christ as a Sin Bearer"

Using as a text the twenty-ninth verse of the first chapter of John and taking as a subject for his sermon "Christ as a Sin Bearer," Rev. J. P. Harrington, pastor of the Protestant Episcopal church, preached to a large audience last night.

Rev. Mr. Harrington built a foundation for his remarks around the description given in the fifty-third chapter of Isaiah of Christ's suffering death and his crucifixion. He pictured illustrations, why it was necessary for the death of Christ and answered the question "Do we need a sin bearer?" in four parts. "First of all," he said, "we need a sin bearer, because we have all, at some time, broken God's law. Second, because of the universal desire we find for some one to help bear the burdens of our sins. Third, the teachings of our conscience tells us that we need a sin bearer and fourth, whenever men have tried to help others, without taking God into their plans, all has failed. Jesus Christ is the only one who will and can bear the burden of our sins."

The sermon was evangelistic in its nature and resulted in many requests from members of the audience for prayer for themselves, friends and relatives.

The newly organized choir and orchestra furnished music for both the morning and night services, and at the latter a solo, "If I Were a Voice," was sung by W. H. Payne, choir director.

Police Searching for Owner of Baggage

Someone, the owner of three pieces of baggage, is wanted by the police. Not for any misdemeanor but in order to return their baggage which consists of a black handbag, a sample case and a suitcase.

These articles were found at an early hour Sunday morning by a patrolman. No one, looking as if they were the owners of the grips, was in sight.

Letters addressed to A. L. Herrington of Brownwood were found in one of the grips.

No basement necessary. Set it on the back porch. In the attic or any old place—our gas burning hot-air furnace. Torbett & Germond Co.—Adv.

Waco Pastor Begins Series of Sermons

Rev. W. B. Holland, pastor of the Clay Street Baptist church, yesterday morning began a series of sermons using the characters from the Book of Esther as a basis for these discourses. Rev. Mr. Holland used four characters and the facts pertaining to them in the first two chapters yesterday morning.

During the sermon Rev. Mr. Holland talked of the great prosperity of the king which commended him as a king, and of the celebration which ended in a feast in which wine was served and which brought about a divorce case. In this connection Rev. Mr. Holland said that he had no patience with anyone who gave occasion for divorce.

Rev. Mr. Holland discussed Vashti as a beautiful woman and emphasized the importance of the woman recognizing the man as the God-ordained head of the home. He referred to Esther's foster father as a man who was worthy of his confidence and love and referred to Esther as one who honored those who had reared her.

Facts to be found in this chapter of Esther will be used for the sermon next Sunday morning.

ACTRESS WHO QUIT COHAN WEDS AVIATOR

Claude Graham-White and his second wife out for a spin.

Claude Graham-White, famous aviator and air warrior for Great Britain, has just taken to himself a second bride. She was formerly the wife of George M. Cohan, the American playwright and actor. She appeared on the American stage as Ethel Levy.

SIMMONS COLLEGE BASKETBALL TEAM PLAYS HERE TODAY

Students at Baylor and friends of the institution interested in basketball will have an opportunity to see five games between the Baylor team and visiting teams this week. This afternoon at 4 o'clock the Baylor Bear basketball team will meet Simmons college of Abilene. The same two teams will clash here tomorrow.

The next five the Bears will meet this week will be the five representing Decatur college, which will be Wednesday afternoon. Friday afternoon and Saturday afternoon the team will play Southwest State Normal.

Despite the fact that three of the best players on the local lineup are unavailable for play because of illness, the coaches and players are optimistic about the games ahead. Already the players have been practicing for some time and have developed a string of substitutes which enable them to view the with drawal of three of their best men with no great amount of alarm.

Oilers to Present Strong Lineup at Opening of Season

Beaumont, Jan. 21.—When Mike Kelly's Saints from St. Paul of the American association reach Beaumont on March 5 to start spring training, President Ed Stedman of the local Texas league team will have a likely looking squad to furnish entertainment for the visitors. Practically all of the Oilers who finished the 1916 season with the Beaumont club will be here for a trial at the old jobs next year. With the exception of a shortstop, the same old infield will be on the job. And, if Jack Johnson can be persuaded to play again, the outfield will be unchanged. Joe Martina, Ducky Swan and "Ironside" Watkins—the youngster with the glasses—will all be back for a whirl at twirling jobs. Bob Chester Bobo and Tom Wilson will report for start duty.

But these veterans of 1916 will have to fight for their jobs, for many new men have been signed. Present indications are that the Oilers will start the season of 1917 with more strength than has ever been shown here on the opening day.

Hy Munzell, who once was the idol of San Antonio, will add strength to the pitching staff, being persuaded to leave the Pacific coast for a return engagement in Texas. Doty Blades, a high school phenom from Sherman, with his six feet and an inch or so of muscles and a southpaw that promises great things, will also be on the mound staff. Harry Hughes, who pitched in the Pacific coast league last season and who has been bought from Vancouver, will be given a trial. Vessey, suspended last year because he was a hold-out, is un-

GOLF ASSOCIATION MAY FORM COURT TO PASS ON RULES

By Associated Press.
Chicago, Jan. 21.—Action independent of the United States Golf association on the definition of an amateur golfer will be taken by the Western Golf association under the new officers and board of directors elected last night at the annual meeting of the association. It was announced today that the Western association, which was formed by the merger of the two leading golf bodies in America and eventually result in the formation of a new organization which would attempt to become the supreme court of golf in the United States.

No sooner had the annual meeting ratified rulings by the outgoing board of directors, making the Western Golf association an amateur golfer, than the new board of directors met and named a committee to formulate a positive definition of an amateur. This committee, composed of President Charles F. Thompson of Flossmoor club, Secretary Charles E. Smalley of Olympian Fields, and Assistant Secretary Crafts W. Higgins, all of Chicago. The amateur rules committee will submit a draft of a new definition to the other officers and directors for ratification, and the new rule will then be placed in effect by the board of directors, subject only to review at the next annual meeting of the association.

President Thompson has substantially the unanimous support of the new board of directors, he said, in his effort to formulate a definition of an amateur that would not have to be interpreted as applied to each individual. He said that under the present rules, making any golfer a professional whose profits from handling golf goods arose from his prominence in the game, Francis Ouimet had been declared a professional by the United States Golf association, while another man, who likewise handled golf goods, had been held to be an amateur, because in the opinion of the committee he had not gained sufficient prominence on the links.

The Western association has as active members 240 clubs. Horace F. Smith of Nashville, president of the Southern Golf association and member of the Western association's board of directors, some time ago announced a plan for the organization of a new national body, and it was said today that some such plan may be tried within a few months.

Cooper May Get Chance to Star With Majors

It is within the range of possibilities that Claude Cooper, former outfielder for the Brooklyn Federals, may get his chance to star in the major leagues this season. Cooper was the man picked to fill Gavy Cravath's shoes in case the Phillies are unsuccessful in their efforts to buy the Pirates' American Cub slugger now with the Pirates.

Cooper has never really had a chance to start, although all those who have watched his work in the class of an outfielder as one would want.

Cooper's first big league engagement was with the Giants, whom he signed four years ago. He was kept on the bench for two years, and when the Federal club was snatched by the Brooklyn club, he was somewhat of a failure with the Brooklyn club in 1914, due to eye trouble, but he recovered in 1915, and was the best outfielder in the circuit with the exception of Bennie Kauff.

Cooper joined the Phillies last season, but didn't get much chance to shine. This will be his big opportunity, and it's thought in baseball circles that he'll make good.

The Cleveland Indians had a chance to get Cooper last winter, when John Gangel was peddling the Federal league contract.

Cooper isn't a slugger of the Cravath type, but he hits the ball hard, fields well, and is fast on the bases, something that Cravath was not.

According to reports from Chicago, the officials of the Chicago Cubs have invited Charles "Chick" Evans, American golf champion, to make the trip to California with the Cubs to coach the players the correct batting form.

That sounds nice, but don't think that the reason the club owners have invited Evans to go along is mainly to teach Mitchell's batters how to bat. The real reason, it is hinted, is that Charles Weighman and other officials are anxious to improve their golf and then any more than the clever nobody in all the world can help "Chick."

SOME OF THE LEADING BIG LEAGUE STARS AMONG THE HOLD-OUTS

Left to right, above: Maranville, Janvrin and Alexander. Below: Joe Bush and Wallie Schang.

A number of the stars of fast company have sent back their contracts for next season, refusing to sign at the salary mentioned and demanding more money. Quite a few of them feel that their work last season deserves a substantial increase in their wages and when they didn't get it they turned back the papers. Among them are Grover Alexander of the Phillies, Maranville of the Boston Braves and Janvrin of the Red Sox and Joe Bush and Schang of the Athletics.

FOUR MAJOR CLUBS WILL CONDITION NEW TRAINING CAMPS

By Associated Press.

New York, Jan. 21.—According to the tentative announced plans of the major league baseball clubs more than 70 per cent of the season's training camps will be held in the spring training grounds preliminary to the 1917 pennant races. But one club in the American league will work out the muscle kinks on a new field. The National league teams show a more restless spirit, three of the eight clubs having stated that their players will prepare for the diamond battles under different surroundings next March.

The Chicago Nationals will train at Pasadena, Cal., this spring in place of Tampa, Fla.; Pittsburgh has planned to shift from Hot Springs, Ark., to Columbus, Ga., while Brooklyn is expected to desert Daytona, Fla., for the diamond left vacant by Pittsburgh at Hot Springs. In the American league, Clark Griffith will take the Washington team to Augusta, Ga., instead of returning to Charlottesville, Va., where the Nationals have trained for several seasons. All the other junior league clubs will journey to their old camps. The full list of the National American league training quarters for the coming spring is as follows:

National League.
Chicago at Pasadena, Cal.; New York at Marlton, N. J.; Pittsburgh at Columbus, Ga.; Cincinnati at Shreveport, La.; Philadelphia at St. Petersburg, Fla.; Brooklyn at Hot Springs, Ark.; St. Louis at San Antonio, Texas; Boston at Miami, Fla.

American League.
Washington at Augusta, Ga.; Boston at Marlton, N. J.; Chicago at Marlton, N. J.; Detroit at Hot Springs, Ark.; Cleveland at New Orleans, La.

HEAVY SELLING ON COTTON LAST WEEK KEEPS PRICES DOWN

By Associated Press.

New Orleans, Jan. 21.—Heavy selling was felt by cotton last week and prices have been kept below the level of the previous week's close throughout. The net change was a loss of 88 to 100 points. The lowest levels were reached on the closing session of the week when the most active months were 96 to 100 points, or almost exactly a cent a pound under the preceding week's final quotations.

Many features contributed to develop sentiment against the market. On the opening session of the week the census bureau figures on consumption for December were considered too low to fit in with bullish accounts of mill prosperity, while there was increasing nervousness over marine news, brought to a climax by a story that Germany had under construction over a thousand submarines. Toward the close came reports from the interior that unhedged cotton was not as firmly held as it was

and there were accounts of preparations for increased acreage in important sections of the belt. The week closed with the market showing a weak undertone. On next Tuesday on the opening of the market the census bureau will issue the last of its regular semi-monthly reports on ginning. This report will carry the crop down to January 15.

By Associated Press.
New York, Jan. 21.—Dealings in the stock market last week prompted little specific comment. Trading was small and narrow in the main although with a broader tendency in the later sessions. Restriction of operations was again attributed largely to the continued abstention of public interest.

There was a moderate increase of investment demand for bonds and high grade stocks, but inquiry was not up to general expectations. The terms of the new British loan attracted wide attention and the syndicate managers already report applications in amounts so large as to indicate an over subscription.

Banking interests regarded the Bank of England's action in reducing the open discount as a logical outcome of the greater ease of money in London, together with the placing of the British government's new internal loan.

Domestic monetary conditions indicate further relaxation.

Commercial banks report the smallest inquiry of recent years from mercantile sources.

It is evident that some of the largest industrial interests of the country will soon come into the money market for

expansion purposes. Reports of a probable bond issue by the Bethlehem Steel company accounted for the weakness of the stock during the last five days. Virtually all time rates were lower here and at other reserve centers.

COTTON

Geo. H. McFadden & Bros. Agency, W. J. NEALE, Agent, WACO, TEXAS.

Youngsters in Demand.

By Associated Press.
Minneapolis, Jan. 21.—The management of the local club of the American association which in the past has been composed largely of major league veterans, has changed its former policy and hereafter will seek only youngsters from the smaller leagues, according to Mike Cantillon, manager of the Millers. Cantillon said he has become convinced that youth and ambition are more desirable than experience and baseball brains.

Won't Play Princeton.

By Associated Press.
Ann Arbor, Mich., Jan. 21.—The University of Michigan will not meet Princeton on the gridiron next fall. The reason given for the failure to arrange a game is that Princeton would not enter into a two-year contract. The eastern institution was willing to play one game with Michigan but would not agree to a return contest.

PRIVILEGE OF VOTING ON ROAD IS DESIRED BY TEXAS TRAVELERS

The matter of securing a law allowing traveling men the privilege of voting while away on the road was strongly urged by A. S. Katz at the meeting of the Texas Travelers yesterday morning at the Raleigh. Chairman E. S. Keane Jr. and the legislative committee have this proposition in charge. Traveling men of Texas are urged by the organization to write their legislators and representatives in the legislature to favor a proper law granting this privilege. Mr. Kerker of Michigan, a visitor at the session, stated that several states had such a law now. In Michigan traveling men are allowed to go before a notary public after making a ballot out in secret, forwarding the same to his county clerk, who casts the ballot, he stated.

The resolutions committee presented tribute to the memory of Tom G. de Cordova, a charter member of the organization and at the time of his death the second vice president. They were passed by a standing vote.

HOTEL IMPROVEMENTS ARE REPORTED.

One of the chief activities of the Texas Travelers during its first year has been the pressing of better hotel accommodations throughout the state, and as a result of the work of Chairman E. A. Schmitt and his co-laborers on the hotel committee letters are being received from over Texas from various hotel proprietors showing decided improvements in many respects.

Under the auspices of the organization, Chairman N. S. Clifton, assisted by his committee, is planning a dinner and dance to be given at Hotel Raleigh Saturday night, January 27, beginning at 8 o'clock. Members and members' guests and ladies are invited. Good progress in the sale of tickets was reported.

CHARTER WILL BE PROCURED.

Upon motion of J. F. Gaither, Chairman C. K. Weil of the charter committee was instructed to make a final report at the first meeting in March. Mr. Weil has been instructed to procure a charter for the organization. As the organization now numbers nearly 300 members and has a substantial treasury it has been deemed best to add a benefit feature, this matter now being in the hands of President J. S. McClintock and a special committee.

N. S. Clifton, reporting for the transportation committee, stated that the Texas Travelers had a representative in Austin, Paul L. Young, at the hearing of the question of the proposed abolishment of the interchangeable mileage script and baggage script. The proposition was overruled by the railroad commission, and the traveling men representing all the various organizations were successful in this skirmish.

President J. S. McClintock in a talk gave some new points on salesmanship.

Hotel Raleigh Has Two New Clerks

James W. Moore, better and familiarly known as "Jimmy" to hundreds of traveling men of the state and elsewhere, and a well known hotel clerk, is one of the newest acquisitions to the Hotel Raleigh. E. A. Stallings, formerly of the Virginia of Chicago and Parkside of Kewanee, Ill., is also one of the new clerks.

This is the beginning of the results of the trip which Manager R. E. Fallow of the hostelry is now making. Some time ago Mr. Fallow left for the East to visit two of his hotels. During his absence M. B. Hutchins has been in charge of the Raleigh.

Mr. Fallow is expected to return to Waco in the near future, probably before February 1.

"NO MORE MUNITIONS FACTORIES FOR US," SAY THE CITIZENS OF KINGSLAND, N. J.

Miss Nellie Day and shell which pierced wall of house in Kingsland, N. J.; shell which buried its nose into a railway tie two miles from munition works.

The residents of Kingsland, N. J., the town that was wrecked last week when the Canadian Car and Foundry Company's plant blew up, have threatened to have the law on the company if it attempts to rebuild in that town. The accompanying pictures indicate the reason.

Just a Moment Please--

Last week was again quite dull in navy enlistments. It was announced by recruiting officers of the navy. Bad weather made itself felt there as well as elsewhere.

Light showers which fell early yesterday morning and about noon again refreshed the small grain, which already had been materially revived by the moisture of several days ago.

Pablo Mora, a Mexican, died at 3:15 o'clock yesterday morning at 211 south side of the square. Funeral services were held yesterday afternoon at 3 o'clock, interment at Greenwood cemetery, Rev. W. A. May officiating.

The young man who was arrested Saturday night by Policemen Craven, Hancock and Fields, and charged with burglarizing a cigar stand at Fifth and Franklin streets, was transferred to the county yesterday.

The meeting to be held Wednesday at Meix in reference to extending the state railroad from Palestine to Waco will be attended by a number of representatives of the Y. M. B. L. President R. B. Dupree will make an effort to get to the meeting place on road time. The matter probably will be taken up in earnest today.

It is expected that drilling on the new artesian well of the Waco City waterworks will begin tomorrow. Contractor Benkenendorfer has everything practically in readiness for starting the well, which will be a ten-inch one. Every effort will be made, states Secretary-Manager E. L. Fulkerson, to complete the well before the hot weather makes itself felt.

Announcements were made in the Methodist pulpit and in some other pulpits in Waco yesterday regarding the Sunday school institute which will be held beginning January 23 and lasting until and including January 28. Sessions of the institute will be held at Austin Avenue Methodist church, and several experts will be in charge. The public is invited.

That service right on the border is a pretty lively proposition, with little

clashes with Mexicans occurring from time to time, is the statement made by Sergeant Coy C. Vandiver, who has been spending a short furlough in Waco. He is stationed on the Rio Grande, at Presidio. He has been promoted twice in the past few months.

At the meeting at 12:15 noon today at the Hotel Raleigh the Rotarians will decide whether they will levy an assessment on members for an entertainment fund, this assessment to be \$1 per quarter. An inviting and catchy program has been arranged for this meeting and a large attendance is expected.

Personals

Smith Powell is ill at his home in South Waco.

A. G. Deckins of Dallas was in Waco yesterday.

L. D. Lovett of Dallas spent yesterday in the city.

James Hood of Hillsboro was a Waco visitor yesterday.

W. B. Stanton is visiting his friends and relatives in Lexington.

Rev. W. L. Nelms of Cleburne, formerly of Waco, was here a while yesterday.

Obituaries

Funeral of Mrs. S. E. Hardy. Funeral services of Mrs. S. E. Hardy were held here yesterday morning at 10 o'clock from the residence at 1308 North Twelfth street. Rev. H. L. Munger officiated at the ceremony. Interment was made at Oakwood cemetery.

Address Given by Rev. J. A. Whitehurst Before Wesley Class

In spite of the undesirable weather the Ashley Chappell Wesley class of Fifth Street Methodist church had a good attendance to hear Rev. J. A. Whitehurst yesterday morning. In his talk Rev. Mr. Whitehurst stressed the all important point that opportunities not be allowed pass unnoticed. "Time in youth is more valuable than at any other time in life," he stated. "Some men, even after having entered solely upon their life work are slow about getting ready to do anything and never do it on time," said the speaker. "Accuracy is the thing that men should develop in their younger days, and if it is not done then it only means a wasting of opportunities. Records made in the youth are of great importance to the man."

Negro Is Smallpox Victim; New Case Is Reported

One new case of smallpox, a negro man, developed in Waco yesterday, according to the daily report last night of City Health Commissioner W. H. Cockcroft.

Also one death occurred yesterday morning. This was a negro man. There are at present twenty-seven cases of smallpox in the hospital and all of these are convalescing, according to the report.

Five persons were dismissed from the hospital yesterday.

MAY START FUND TO PAY VETERANS' WAY TO NATIONAL MEETING

It developed at the regular meeting of Pat Cleburne Camp, U. C. V., yesterday afternoon that there is a proposed movement in Waco to raise a fund with which to defray the expenses of Waco Confederate veterans who will attend the national reunion of Confederates in Washington next spring.

This plan has been followed in three or four Texas cities. Entertainment is always provided for them at the reunions. It is thought the matter will soon take definite form.

Only routine business was transacted at the meeting yesterday afternoon. Commander C. L. Johnson presiding.

Comrades reported sick were as follows: J. F. Finley, S. B. Humphreys, Nicholas F. Leverick and Smith Powell.

Interesting reminiscence talks, in which incidents of battles were narrated, were made by Commander C. L. Johnson, Quartermaster John Moore, Chaplain William Lambdin and D. E. Hicks.

One death of a member since the last meeting was reported, that of G. S. Brown, captain of company F, fourteenth Alabama infantry.

Y. M. B. L. Directors to Plan for "Waco Day" at Stock Show

Directors of the Y. M. B. L. will consider several important matters at the meeting to be held tomorrow night. At this meeting a poll of the directors will be taken by President R. B. Dupree in order to find out how many of them will be able to attend the meeting on the Palestine state railroad, this meeting to be held Wednesday at Meix.

Among other matters to be considered will be the question of extending the white way, and "Waco Day" at the Fort Worth Fat Stock show.

Judge R. I. Munroe's Brother Killed in Florida

Information has been received here that George D. Munroe, brother of Judge R. I. Munroe of the Fifty-fourth district court, was killed Friday in an automobile accident in Quincy, Fla., where he resided. Miss Abbie Munroe, daughter of George D. Munroe, was a Waco visitor several months ago.

Foundry and Machine Firm to Move Plant

The Stubbs Foundry and Machine company is planning to remove its plant from East Waco to Twenty-second and Jackson streets, and additional ground has been purchased at that point from Seaver B. Spencer.

A pattern shop will be constructed on the new location, within sixty to eighty days, and a little later a brick and steel structural plant and foundry will be erected, according to present plans. The new plant when completed will extend across half a block between Twenty-first and Twenty-second streets.

First Services Are Held at Mission

First services of the Mission which is located at 112 North Fourth street were held yesterday. An address was given by Oscar Meyers in the afternoon.

A. J. Livingston is superintendent of the Mission, which is supported by several denominations. Services will be held every Sunday afternoon and night and every Tuesday and Friday night.

Choral Club of Waco Y. W. C. A. Holds Meet

Members of the Choral Club of the Young Men's Christian association met yesterday afternoon at 4:30 o'clock at the headquarters for the purpose of making plans in the work of the club, recently organized. Misses Louise Dotson and Hallie Jenkins directed the work.

Vesper services were held at 5 o'clock led by Mrs. C. H. Carringer.

(Adv.) TOM L. McCULLOUGH.

Mar-not and Floorlac for floors. Sold by The Sherwin-Williams Co., 720 Austin St.—Adv.

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition became overworked, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Haarlem Oil Capsules, the National Remedy of Holland, will do the work. They are wonderful! Three of these capsules each day will put a man on his feet before he knows it, whether his trouble comes from uric acid, indigestion, kidney, stomach derangement or other ailments. Don't be the over-zealous American. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. 25c, 50c and \$1.00 per box. Accept no substitutes. Look for the name GOLD MEDAL on every box. They are the pure, original, imported Haarlem Oil Capsules.
THE END.

THE HOOVER SUCTION SWEEPER

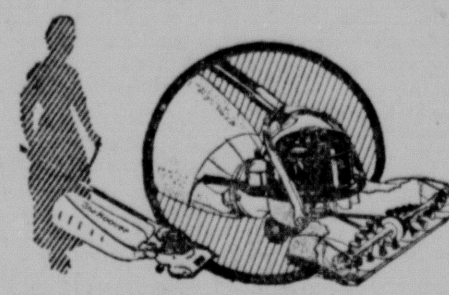

We Invite You to Attend Our Demonstration of the Hoover Suction Sweeper

The Hoover presents the best thought and the best workmanship in Suction Sweepers. It does its work perfectly. To appreciate what one would mean to you in your home, you must see the demonstration. See the Hoover put to the test, let the expert explain its advantages and what a labor saver and thorough sweeper it is, then watch him demonstrate before your own eyes that it will do all that is claimed for it.

We recognize the Hoover as the most perfect Sweeper on the market, else we would not recommend it to our customers. You'll be as enthusiastic about it as we are, once you see it in operation.

We invite you to attend this demonstration all this week, first floor, main aisle, near the main Austin street entrance.

Sanger Brothers

Officers Elected by German-American Organization

At a largely attended meeting yesterday afternoon of the German-American Alliance, held at Maennerchor hall, the election of officers for the ensuing term was held and committees were appointed.

Officers who were elected were: President, Henry Quebe, McGregor; first vice president, Dr. A. Waco; second vice president, Dr. A. F. Sonntag, Waco; third vice president, Rev. C. Praeger, West; secretary, W. J. Geisler, Waco; treasurer, C. Mallander. Directors: Paul Manske, Crawford; Henry Schaper, Robinson; Rich. Roeder, McGregor; Chas. Elsemann, Waco; Rev. Joseph Jaworski, Waco; Adolph Schak, Waco; H. Lippe, McGregor; Wilhelm Meinscher, Leroy; Adolph Wenddorf, West; Herman Zeigler, Erath. Finance committee: George Amiot, H. Billart, Ernst Winkler.

It is necessary for persons to be American citizens in order to belong to the Alliance, and all were strongly urged to pay their poll taxes.

Letters were read from the secretaries of state and national organization.

Dr. I. Warsaw Gives Talk Before Y. M. H. A.

The regular semi-monthly meeting of the Young Men's Hebrew association was held last night with a good attendance.

Dr. I. Warsaw gave the organization a few timely remarks. Short talks by a few members pertaining to the good and welfare of the association were rendered. A musical number was given by the Levy brothers.

L. Lazarus was elected next program chairman.

W. F. QUEBE, Sec.

Talks, Music and General Good Time Feature Printers' Banquet

Setting a new mark in brilliancy for the annual banquet of the Waco Typographical Union, No. 188, the third annual event was held last night in the Trades Council hall on South Fourth street. For the first time the wives and friends of the members of the organization were invited to attend the yearly affair.

Given in cabaret style with several cabaret numbers, the banquet was somewhat different from the first and second annual feasts. The hall was attractively decorated for the occasion.

Policeman H. S. Head, who was present to assist in a mock trial, gave a talk in which he reviewed the evolution of the printing business. He referred to the old printing methods used and started by Franklin and traced the growing trade up to the present, modern methods which enable the newspapers to place news on the street only a brief time after an event happens.

In an address rendered by W. V. Crawford, the printers were commended on their daily paper, the Cotton Boll, which was published during the last COTTON PALACE exposition. He stated that he had always found the Waco printers eager to promote the city and to boost for a larger and better municipality.

That he had attended all three of the annual banquets was stated by J. W. Carlin who complimented the organization on the affair given last night. He declared it to be a great pleasure to meet with the printing folk of Waco.

Carl Chambers also complimented the organization on its annual banquet.

quert and spoke a favorable word for the union.

Representing the ladies present Mrs. H. H. Boone, wife of a member of the union, expressed thanks for the invitation the union had given the ladies to be present.

Brief talks were given by Frank White, superintendent of the American press; E. A. White, who represented the employing printers of the city, Eddie Pohl, member of the Texas national guard, who is in the city on a furlough; J. A. Johnson and Frank Hartman, apprentice at the Waco Morning News. Miss Frances Blanchard rendered a reading.

Joe W. Wright, president of the Typographical Union, acted as toastmaster for the banquet. Music was rendered by Alessandro's orchestra.

As a member of the committee that made the arrangements for the banquet, H. H. Boone, linotype operator of the News, made a talk thanking those who had co-operated in making the banquet the success that it was. He said that he failed to find any one that was not willing to give their assistance to help the union in any way inasmuch as the union had ever stood for Waco. Other members of the committee that helped in the arrangements were G. A. Nelson and G. J. Glenn.

NOTICE.

Dr. A. R. Craven will be in Praetorian building, rooms 505 and 506, after January 22.—Adv.
